

April 2024 Admission

Master's Degree Program
Graduate School of Regional Development and Creativity
Utsunomiya University

Round 3 Recruitment

General Screening

Special Screening for Applicants with Full-Time Employment

Special Screening for International Students

Special Screening for Third-Year Undergraduate Students

Special Screening for Experienced Persons in International Exchange/Cooperation

Utsunomiya University

“A Wealth of Ideas for the Community and
New Knowledge for the World”

For those applicants who have suffered from a disaster such as earthquake, wind, or flood damage, Utsunomiya University can provide an exemption from the entrance examination fee. For details, please see page 49. In addition, the university is willing to provide support to those candidates for whom the entrance fee and tuition are an exceptional financial burden. Thus, students who cannot meet the financial needs for enrollment should consult the university for support.

The following graduate programs are not offered in English.

Community Design Studies(Round 3 recruitment will not be conducted)

Irrigation, Drainage and Rural Engineering (Round 3 recruitment will not be conducted)

Community and Human Development (Round 3 recruitment will not be conducted)

※All dates and times are in Japan time

☆ Overall Schedule

【General Screening】 【Special Screening for Applicants with Full-Time Employment】 【Special Screening for International Students】 【Special Screening for Experienced Persons in International Exchange/Cooperation】

	All Graduate Programs
Online Application Pre-Registration Period	Friday, February 2, 2024 to Thursday, February 8, 2024 3:00 p.m.
Period of Receiving Applications	Tuesday, February 6, 2024 to Thursday, February 8, 2024 From 9:00 a.m. to 4:00 p.m. (excluding Saturdays and Sundays)

Announcement of Acceptance	Tuesday, March 12, 2024 Thursday, December 21, 2023 Scheduled for 1:30 p.m.

Points of Attention

○Round3 recruitment for Global and Area Studies[Division of Social Design] and Multicultural Studies [Division of Social Design] only will be conducted.

○ The Special Screening for Experienced Persons in International Exchange/Cooperation is only available for the Graduate Program in Global and Area Studies and the Graduate Program in Multicultural Studies.

Handling of personal information

Personal information submitted to apply to the program (e.g., name, date of birth, gender, address, academic records, and entrance examination results) are used within the range of purposes listed below and shall be handled with appropriate care.

- ① Administrative operations leading up to entering the program (e.g., applicant screening and entrance formalities)
- ② Administrative operations after entering the program (e.g., issuance of student IDs, guidance counseling, creation of lists of names, etc.) and for student life-related matters (e.g., scholarships, exemption from tuition fees, etc.)
- ③ Other administrative operations required to carry out education, research, and student support, and to prepare statistical and analytical data, etc.

Inquiries

Administrative Office for Admission Center, Utsunomiya University
350 Mine-machi, Utsunomiya-shi, 321-8505 Tel: 028-649-5405

Online Application Flow

The process to complete the application is as follows.

STEP

1

Preliminary Preparation

Please prepare a computer with an Internet connection and a color printer.
The required documents may take some time to be issued.
Please start preparing early, and be sure to have them on hand before you apply.

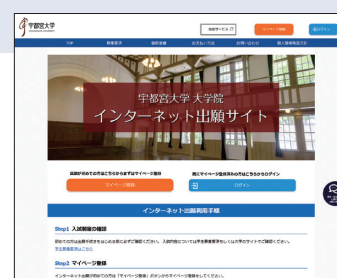

STEP

2

Accessing the Application Site

From online application site ▶ <https://e-apply.jp/ds/utsunomiya-gs/>

STEP

3

Register for the My Page

According to the instructions on the screen, enter the required information to register for the My Page.
If you have already registered for the My Page, proceed to STEP4.

① If you register for the first time, log in from

My Page Registration

② Register your e-mail address and click on

Send an e-mail for temporary registration

③ Click on **To log-in page** from the user registration screen.

④ A default password and a URL for the definitive registration will be sent to your registered e-mail address.

*Configure your e-mail settings to receive e-mails from the domain of "@e-apply.jp".

⑤ On the log-in screen, click on **log-in** using your registered e-mail address and the "default password" you received in step ④.

⑥ Change your default password.

⑦ Enter your personal information and click on **Next**

⑧ Confirm your personal information and click on **Register this information**

⑨ Registration is complete. Click on **To My Page**

⑩ When the above page appears, My Page registration is complete.

*Only while applications are being accepted, you can proceed to the application procedures by clicking on the **Carry out the application procedure** button. You cannot proceed from here onward during times outside the registration period. Click on the **Log-out** button.

STEP

4

Registration of Application Details

Make sure to confirm the procedures and important notices on the screen, and then enter the required items according to the instructions on the screen.

① After logging in to My Page, click on the **Carry out the application procedure** button, and the registration page will appear.

② Select an entrance examination and confirm important notices.

③ Select the Major and Graduate Program, etc.

④ Upload a facial photo. Click on the **To Photo Selection** button to select a photo.

⑤ Enter personal information (name, address, etc.).

⑥ Confirm your application information. Click on the **Application Form (sample)** button, and you can confirm your application form.

⑦ Registration for application is complete. Click on the **pay** button, and you will be redirected to the page where you can pay the entrance examination fee.

⑧ Payment methods for entrance examination fees.

- Convenience stores
- Pay-easy compatible ATMs
- Online banking
- Credit cards

⑨ Documents required for the application in PDF format (images)

*The documents can be printed out after the payment of the entrance examination fee.

If you have selected "Convenience Store" or "Pay-easy compatible ATMs" as your payment method, write down a payment number on the memo space below, which will appear after the selection of a payment method, and make the payment at a convenience store or a Pay-easy compatible ATM within the "payment deadline" as notified to you.

For 7-ELEVEN

A payment slip
A payment number
memo (13 digits)

For Daily YAMAZAKI, Seicomart

An online
settlement number
memo (11 digits)

For LAWSON, MINISTOP, FamilyMart, Pay-easy compatible ATMs

A customer
number memo
(11 digits)

A confirmation
number memo
(6 digits)

A receiving agency
number (5 digits)

5 8 0 2 1

*A receiving agency number is required for payment by Pay-easy.

A confirmation e-mail will be sent to you after the registration for application is completed. If you have restricted the receipt of e-mails, please allow e-mails from the sender (@e-apply.jp) to be received. *Please be careful that confirmation e-mails may be sorted into your junk e-mail folder, etc.

Please be careful not to enter incorrect information, as it is not possible to correct or change the registered information after the registration for application is completed. However, if you have not yet paid the entrance examination fee, you can practically correct the information by re-registering using the correct application information.

*Please note that if you have selected a credit card in "Payment Method for the Entrance Examination Fee," the payment will be completed simultaneously with the registration for application.

STEP

5

Payment of Entrance Examination Fee

1 Payment by credit card

Select this when you register your application details, and complete the payment.

[Credit cards accepted]

VISA, Master, JCB, AMERICAN EXPRESS, MUFG card, DC card, UFJ card, NICOS card

Payment completed at the time of registration of application

2 Payment via online banking

After registering your application details, you will be redirected to the financial institution's site. Please follow the instructions on the screen to make your payment.

※ You must have an online banking account to make your payment.

Completion of the procedure on the Web

3 Payment at a convenience store

Take note of the number required for payment displayed after registration of the contents of the application.

● Payable in cash

● Payable using the store terminal

Loppi

Multi-functional copy machine or Fami Port

4 Payment at ATMs of banks that accept PAY-EASY

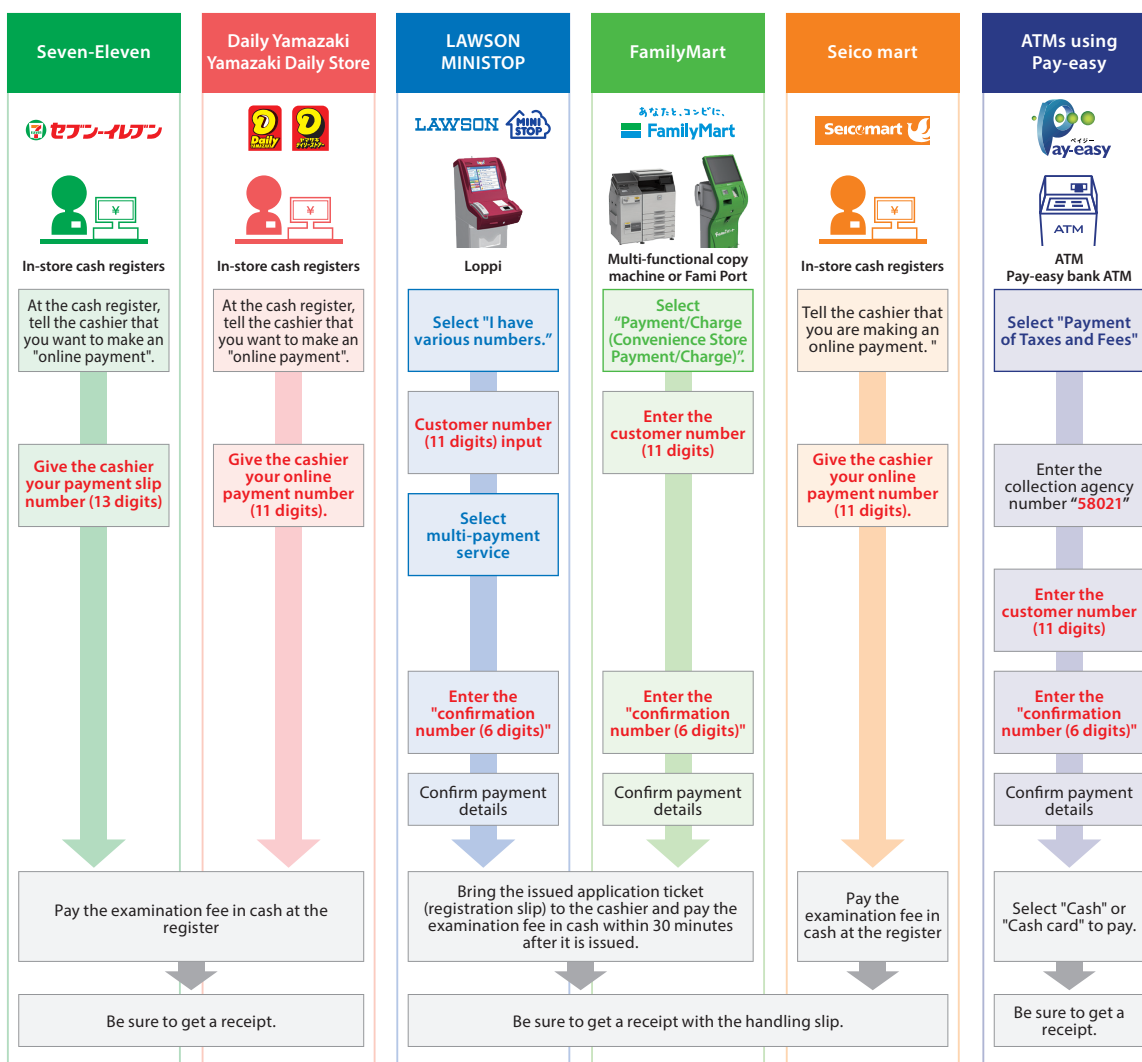

After you have registered your application details, please take down the necessary number for payment, follow the instructions on the screen and make the payment

※ Check the "Select payment method" screen for available banks.

Please follow the instructions on the screen of the convenience store terminal or ATM and enter the necessary information. After confirming the information, please pay the entrance examination fee.

3 Convenience stores

4 Bank ATMs

STEP

6

Printing and Mailing the Required Documents

Print out all the downloadable documents in color after the application registration and the entrance examination fee have been paid and send them together with other required documents via registered/express mail (kakitome/sokutatsu mail) from the post office within the application period.

Prepare the documents required for the application by referring to the application guidelines. In addition to the documents to be printed from the online application site, there are other documents such as those that need to be requested from the universities and documents to be prepared by downloading the form from the homepage of the university, so please prepare these beforehand.

The mailing address of your application will be automatically printed on the address sheet.

Address sheet for submitting your application

Attach the sheet to a commercially available Kaku 2 envelope (24cm x 33.2cm).

■ Application documents

One copy is required for each application registration. Please refer to the application guidelines for the documents required for application.

※The entrance examination fee and necessary documents that have been received shall not be returned in any way except for those specified in the application guidelines.

How to print out the "Web Application Form"

- (1) Click on the **Print Application Form** button shown on the My page.
- (2) Once the payment has been successfully completed, you will be able to click on the **Print Application Form** button to print out the web application form.

<Completion of application>

Precautions when applying

The application process is completed by registering on the online application site, paying the entrance examination fee, and sending the required documents by mail. Please note that your application will not be accepted if the application documents are not received by the deadline even after registration is completed.

Online application is available 24 hours a day. The deadline for application registration and payment of the entrance examination fee is 3:00 p.m. on the application due date (business hours vary depending on the facility, such as convenience stores and ATMs). Please send the required documents by mail within the time specified in each application guideline. Please make sure to apply well in advance.

STEP

7

Printing the Examination Ticket

When the application is accepted and the application form can be printed, you will be notified through the e-mail address you have registered. If you do not receive the e-mail, please log in to the online application site on the day before the examination, print the form out on an A4 paper, single-sided and in color, and bring this with you on the day of the examination.

Overview of the Graduate School of Regional Development and Creativity

【Philosophy】

『The School will foster highly capable human resources who support the creation of social design and innovation to solve the problems of the 21st century and contribute to establishing a sustainable and prosperous society while promoting unique and competitive research in science, technology, and innovation for the Sustainable Development Goals (STI for SDGs).』

【“Region” in the Graduate School of Regional Development and Creativity】.

The School does not define “region” simply as a space or sphere in the geographical or physical sense of the word. According to our definition, “region” is a dynamic and diverse concept that refers to a research theme established in response to the issue at hand. Further, it is part of an interactive chain consisting of “local,” “regional,” “national,” and “global” components.

More specifically, we promote education and research for a wide range of fields, corresponding to the community, urban, regional, national, and international levels.

※Round3 recruitment for Global and Area Studies[Division of Social Design] and Multicultural Studies [Division of Social Design] only will be conducted.

[Educational Mission]

Division of Social Design

- Graduate Program in Community Design Studies (Round 3 recruitment will not be conducted)
Human resources with the ability to design communities by acquiring advanced knowledge and skills in community design, and who can contribute to the creation of sustainable and prosperous local communities.
- Graduate Program in Agricultural and Rural Economics (Round 3 recruitment will not be conducted)
Human resources with the ability to design social systems related to food, agriculture, and rural areas by acquiring advanced knowledge and skills in agriculture and rural economics, and who can contribute to the creation of sustainable and prosperous local communities.
- Graduate Program in Architecture and Building Engineering (Round 3 recruitment will not be conducted)
Human resources who can acquire advanced knowledge and skills in architecture, work as designers, technicians, and researchers in architecture, and contribute to the creation of sustainable and prosperous local communities.
- Graduate Program in Civil Engineering (Round 3 recruitment will not be conducted)
Human resources who can contribute to the creation of sustainable and prosperous local communities by acquiring advanced engineering technology in civil engineering, and who can design comfortable, safe, and strong social infrastructures.
- Graduate Program in Irrigation, Drainage and Rural Engineering (Round 3 recruitment will not be conducted)
Human resources who can contribute to the creation of sustainable and prosperous local communities by acquiring advanced knowledge and skills in agricultural civil engineering, and who can design good agricultural and rural infrastructures.
- Graduate Program in Global and Area Studies
Human resources who can design a society from a global perspective, and who can contribute to the creation of sustainable and prosperous local communities by acquiring advanced knowledge and skills to understand and solve various problems occurring in Japan and around the world.
- Graduate Program in Multicultural Studies
Human resources who have acquired advanced knowledge and skills related to multicultural coexistence, who can contribute to the creation of sustainable and prosperous local communities, and who can design a multicultural society where people from different cultures, languages, ideologies, religions, values, and positions can live together.
- Graduate Program in Community and Human Development Studies (Round 3 recruitment will not be conducted)
Human resources who can contribute to the creation of sustainable and prosperous local communities by acquiring advanced knowledge and skills in community and human development studies, and who can design social systems related to the “hearts and minds” of the people from the perspective of human thought, life, and health.

Division of Engineering and Agriculture

- Graduate Program in Optical Engineering (Round 3 recruitment will not be conducted)

Human resources who can acquire advanced knowledge and skills related to optics, who have the ability to serve as hands-on engineers and researchers, and who can contribute to the creation and development of sustainable and prosperous local communities by leading creation and development in the wide world of optical technology.

- Graduate Program in Molecular Agriculture (Round 3 recruitment will not be conducted)

Our mission is to provide advanced knowledge and skills in molecular agriculture, to give students molecule-level expertise based on analytical techniques and the expression mechanisms of genetic information, and to contribute to the creation of sustainable and prosperous local communities.

- Graduate Program in Material and Environmental Chemistry (Round 3 recruitment will not be conducted)

Human resources who have the ability to acquire advanced knowledge and technology on material chemistry that they can utilize in diverse settings, contributing to the creation of sustainable and prosperous local communities.

- Graduate Program in Agricultural Biological Chemistry (Round 3 recruitment will not be conducted)

Human resources who can contribute to the creation of sustainable and prosperous local communities by acquiring advanced knowledge and skills in biochemistry, and who have the practical ability to work on macro as well as micro-level challenges.

- Graduate Program in Mechanical and Intelligent Engineering (Round 3 recruitment will not be conducted)

Human resources who can acquire advanced knowledge and skills related to intelligent machines, work as internationally recognized researchers and engineers, and contribute to the creation of sustainable and prosperous local communities.

- Graduate Program in Information, Electrical and Electronic Systems Engineering (Round 3 recruitment will not be conducted)

Human resources who can acquire advanced knowledge and skills related to electricity, electronics, and information and communication, work as internationally recognized researchers and engineers, and contribute to the creation of prosperous local communities through the discovery of new problems and formulation of new challenges.

- Graduate Program in Agricultural and Environmental Sciences (Round 3 recruitment will not be conducted)

Human resources who can contribute to the creation of a sustainable and prosperous local community by acquiring advanced knowledge and technologies related to agricultural production and processing, effective reuse of bio-resources, environmental conservation, wildlife management, etc., thereby helping to establish new agriculture to achieve labor-saving and high-quality production.

- Graduate Program in Forest Production and Conservation (Round 3 recruitment will not be conducted)

Human resources that can contribute to the creation of a sustainable and prosperous local community by acquiring advanced knowledge and skills related to forest and forestry, thus contributing to the construction of diverse and lasting relationships between forests and humans and the utilization of forest resources.

Admissions Policy of the Graduate School of Regional Development and Creativity (Master's Degree Program)

1.Desired Candidates

[Graduate School of Regional Development and Creativity]

- (1) Individuals with the basic academic skills required for learning and research
- (2) Individuals who have the ability to think creatively and act independently and are willing to take on the challenges of new fields with enthusiasm
- (3) Individuals with a strong interest in and motivation to contribute to the local community by acquiring specialized knowledge, skills, and practical abilities

[Division of Social Design]

- (1) Individuals who have the basic academic skills necessary to study and research the designs of sustainable human societies and social environments where diverse people can coexist in harmony
- (2) Individuals who wish to develop their creative abilities while improving their skills in social design
- (3) Individuals with a strong interest in and enthusiasm for contributing to the local community through social design

○ Graduate Program in Community Design Studies (Round 3 recruitment will not be conducted)

- (1) Individuals with the basic academic skills in such fields as policy science, community development, and lifestyle culture necessary to study community design
- (2) Individuals who are willing to look at the community, learn from the practices on the ground, and try to solve new challenges
- (3) Individuals who have a strong interest in and willingness to contribute to the local community through community design studies

○ Graduate Program in Agricultural and Rural Economics (Round 3 recruitment will not be conducted)

- (1) Individuals who have the basic academic skills in the social sciences (economics, sociology, history, etc.) necessary to study agriculture and rural economics
- (2) Individuals who have a high level of logical thinking ability, wish to proactively learn from the real world, and are willing to try to solve new challenges related to food, agriculture, and rural areas
- (3) Individuals with a strong interest in and willingness to contribute to the local community through agriculture and rural economics

○ Graduate Program in Architecture and Building Engineering (Round 3 recruitment will not be conducted)

- (1) Individuals with the basic academic skills in architectural structures, architectural planning, architectural environment engineering, and building materials required to learn architecture
- (2) Individuals willing to learn the relationship between architecture and the changes in the global environment and community, and to challenge new creations from a variety of perspectives from local to global.
- (3) Individuals with a strong interest in and enthusiasm for contributing to the local community through architecture

- **Graduate Program in Civil Engineering** (Round 3 recruitment will not be conducted)
 - (1) Individuals with the basic skills in such fields as structural engineering, water engineering, geotechnical engineering, civil engineering planning, and civil engineering materials science necessary to study civil engineering
 - (2) Individuals willing to learn about the relationship between social infrastructure and the changes in the global environment and community, and challenge new creations from a variety of perspectives from local to global.
 - (3) Individuals with a strong interest in and enthusiasm for contributing to the community through civil engineering
- **Graduate Program in Irrigation, Drainage and Rural Engineering** (Round 3 recruitment will not be conducted)
 - (1) Individuals who have the basic academic skills related to soil, water, and the rural environment necessary to study agricultural civil engineering
 - (2) Individuals willing to learn about the relationships between the global environment and local changes, and between the agricultural and rural infrastructures, and to challenge new creations from diverse perspectives from local to global.
 - (3) Individuals with a strong interest in and willingness to contribute to the local community through agricultural civil engineering
- **Graduate Program in Global and Area Studies**
 - (1) Individuals with the basic academic skills in international cooperation, political science, economics, and regional studies necessary to study international studies
 - (2) Individuals who are interested in global issues and are willing to take on the challenge of solving new issues by acquiring a broad interdisciplinary education and the advanced practical skills required for problem-solving
 - (3) Individuals with a strong interest in and willingness to contribute to the community through global and area studies
- **Graduate Program in Multicultural Studies**
 - (1) Individuals who have the basic academic skills in sociology, literature and cultural studies, psychology, linguistics, and human rights necessary to study multicultural studies
 - (2) Individuals who are willing to learn in-depth about the formation of societies in which people from different cultures, languages, ideologies, religions, values, and positions live together and take on the challenge of solving new issues
 - (3) Individuals with a strong interest in and willingness to contribute to the local community through multicultural studies
- **Graduate Program in Community and Human Development Studies** (Round 3 recruitment will not be conducted)
 - (1) Individuals with the basic academic skills in education and psychology, health and life sciences, and linguistics and arts necessary to study community and human development
 - (2) Individuals who can think creatively and act independently, and are willing to try to solve new challenges related to human development
 - (3) Individuals with a strong interest in and willingness to contribute to the local community through human development studies

[Division of Engineering and Agriculture]

- (1) Individuals with the basic academic skills in the natural sciences required to study and research innovation
 - (2) Individuals who wish to develop their creative skills while improving their expertise in the fields of engineering and agriculture related to innovation
 - (3) Individuals with a strong interest in and willingness to contribute to the community through innovation
- **Graduate Program in Optical Engineering** (Round 3 recruitment will not be conducted)
- (1) Individuals with the basic academic skills in mathematics, physics, and optics necessary to study optical engineering
 - (2) Individuals who are highly interested in fields related to optical engineering and who are willing to take on creative and original challenges
 - (3) Individuals with a strong interest in and willingness to contribute to the community through optical engineering
- **Graduate Program in Molecular Agriculture** (Round 3 recruitment will not be conducted)
- (1) Individuals with the basic skills in molecular biology, genetics, and physiology necessary to study molecular agriculture
 - (2) Individuals who are able to understand life phenomena at the molecular level, have a strong interest in issues in agriculture and the life sciences and molecular analysis techniques and are willing to take up the challenge of using them in the fields of agriculture, forestry, and fisheries
 - (3) Individuals with a strong interest in and willingness to contribute to the community through molecular agriculture
- **Graduate Program in Material and Environmental Chemistry** (Round 3 recruitment will not be conducted)
- (1) Individuals with the basic academic skills in physical chemistry, organic chemistry, and inorganic chemistry necessary to learn material and environmental chemistry
 - (2) Individuals willing to take on the challenge of developing functional materials and solving environmental problems in the chemistry-based manufacturing industry
 - (3) Individuals with a strong interest in and enthusiasm for contributing to the local community through material chemistry
- **Graduate Program in Agricultural Biological Chemistry** (Round 3 recruitment will not be conducted)
- (1) Individuals with the basic academic skills in chemistry and biochemistry related to the properties and functions of compounds and bioactive substances required to study agricultural biological chemistry
 - (2) Individuals willing to challenge the development of functional materials and solve environmental problems in industry and public institutions in the fields of food, pharmaceuticals, and cosmetics
 - (3) Individuals with a strong interest in and willingness to contribute to the local community through biochemistry
- **Graduate Program in Mechanical and Intelligent Engineering** (Round 3 recruitment will not be conducted)
- (1) Individuals who have the basic academic skills in thermodynamics, fluid engineering, mechanical dynamics, material mechanics, and mathematics necessary to study mechanical and intelligent engineering
 - (2) Individuals who are interested in mechanical and intelligent engineering and “manufacturing” and who are willing to take on the challenge of research problems and practical and applied manufacturing, while thinking creatively and independently
 - (3) Individuals with a strong interest in and willingness to contribute to the community through mechanical and intelligent engineering

○ **Graduate Program in Information, Electrical and Electronic Systems Engineering** (Round 3 recruitment will not be conducted)

- (1) Individuals who have the basic academic skills in information mathematics, basic information theory, electromagnetics, and electrical circuits necessary to study information, electrical, and electronic systems engineering
- (2) Individuals who are willing to take on the challenge of developing advanced systems that connect “people” and “things” on the basis of information, electrical, and electronic systems engineering
- (3) Individuals with a strong interest in and willingness to contribute to the community through information, electrical, and electronic systems engineering

○ **Graduate Program in Agricultural and Environmental Sciences** (Round 3 recruitment will not be conducted)

- (1) Individuals with the basic academic skills in bioresource sciences and agricultural environmental engineering necessary to study agricultural and environmental sciences
- (2) Individuals who have a strong interest in and enthusiasm for solving problems associated with agricultural production, and who are willing to use the latest technologies in agriculture and forestry production
- (3) Individuals with a strong interest in and willingness to contribute to the local community through agricultural and environmental sciences

○ **Graduate Program in Forest Production and Conservation** (Round 3 recruitment will not be conducted)

- (1) Individuals with the basic academic skills in forest production and conservation, forest management policy, forest engineering, and forest production and utilization required to study forest production conservation
- (2) Individuals who have acquired advanced knowledge and research skills in the fields of forest, forestry, and forest industry and who will be willing to take on the challenge of solving various issues as professionals and researchers in the future.
- (3) Individuals with a strong interest in and willingness to contribute to the local community through forest production conservation

2. Basic Policy of the regarding the Screening of Applicants

- (1) Individuals who have the skills and thinking ability required for learning and research in the Graduate Program will be given priority
- (2) Individuals who have an interest in issues in specialized fields and border and interdisciplinary areas, and the willingness to acquire knowledge and skills, an independent attitude, logical thinking abilities, the ability to express themselves, and communication skills will also be considered in the evaluation.

The following table shows how, in each screening category, applicants' knowledge and skills required for learning and research at the Graduate School of Regional Development and Creativity (Master's Degree Program) will be examined and evaluated based on the above-mentioned basic screening policy. Applicants' foreign language ability will be evaluated on the basis of their submitted scores on external exams.

Points of Attention

- Round3 recruitment for Global and Area Studies[Division of Social Design] and Multicultural Studies [Division of Social Design] only will be conducted.
- Special Screening for Experienced Persons in International Exchange/Cooperation is only available in the Graduate Program in Global and Area Studies and the Graduate Program in Multicultural Studies under the Division of Social Design.

※Applications for Special Screening by Recommendation have been completed for April 2024 (the entrance examination was conducted in June 2023).

You cannot use these application guidelines to apply for the same.

II. Application Procedure

(1) Application Method

Only online applications are accepted. The application procedure is as follows:

Step 1	Checking Application Guidelines	Before proceeding with the application, read the application guidelines carefully and review their contents.
▼		
Step 2	Registration of Online Application (See page iii for details.)	Use the website below to access the online application and enter the necessary information. (https://e-apply.jp/ds/utsunomiya-gs/)
▼		
Step 3	Payment of the Entrance Examination Fee (See page iv for details.)	Complete payment of the entrance examination fee according to the instructions on the online application site.
▼		
Step 4	Printing Required Documents	Print out the required documents from the online application site.
▼		
Step 5	Sending of Required Documents	Send the required documents printed from the online application site and the university website, along with all other required documents using the registered mail/express delivery [kakitome/sokutatsu] so that they arrive at our university within the application period.
▼		
Step 6	Printing the Examination Ticket	If your application is accepted, you will be able to print out the examination ticket from the online application site after the end of the application period. Each applicant must print this out and bring this with them on the day of the examination.

(2) Application Period

	Application period	Deadline for registration of online application and payment of the entrance examination fee	Deadline for receiving application documents (Must arrive on or before)
General Screening Special Screening for Applicants with Full-Time Employment Special Screening for International Students Special Screening for Third-Year Undergraduate Students Special Screening for Experienced Persons in International Exchange/Cooperation	From Tuesday, February 6, 2024 to Thursday, February 8, 2024	Thursday, February 8, 2024 3:00 p.m.	Thursday, February 8, 2024 4:00 p.m.

Application documents received after the deadline will not be accepted, so please send them well in advance, taking into consideration the postal situation.

(3) Submission Method and Address

As a general rule, applications should be sent via registered or express mail (kakitome/sokutatsu). If there are unavoidable circumstances that prevent you from submitting your application by mail, please submit it in person between 9:00 a.m. and 4:00 p.m. during the application period (excluding Saturday, Sunday and Holiday).

〒321-8505 Administrative Office for Admission Center, Utsunomiya University, 350 Mine-machi, Utsunomiya-shi, Tochigi

(4) Entrance Examination Fee

Entrance Examination Fee: ¥30,000

Please refer to the payment methods on the online application site and complete the payment using one of the following methods: convenience store payment, post office/bank ATM, internet banking, or credit card.

VI. Export Security Measures

Utsunomiya University has adopted the “National University Security Export Control” protocol based on the “Foreign Exchange and Foreign Trade Law.” This is directed at preventing international students from interfering with the maintenance of international peace and security by exporting restricted education or research content. **International students should contact the Research Supervisor of their choice soon as possible to confirm their application.**

The following regulations have been established to comply with the security export control protocol.

- If a security export control examination is conducted, it may take a long time to complete, and depending on the examination results, the examinee may not be able to receive the desired education or research.
- After enrollment, there may be restrictions on the technology provided and the equipment used. In addition, if regulations are strengthened due to the revision of laws, etc., it may become impossible to continue existing research work.

VII. Entrance Examination Fee Exemption

In order to alleviate the economic burden of those who were affected by disasters etc. and to secure opportunities for students to enter the university, the university will take special measures to exempt the entrance examination fee as follows.

① Exemption requirements

The exemption applies for applicants whose primary household resides in an area to which the Great East Japan Earthquake Disaster or the Relief Act (Act No. 118 of 1947) after March 2011 is applied (hereinafter referred to as “the disaster”), and who fall under any of the following categories:

- (a) Where the primary household supporter (father, mother, or any person who has the highest household income; hereinafter referred to as the “primary household supporter”) resides in an area covered by the Disaster Relief Act and resides in any of the following:
 - i. If the house where the primary household supporter resides has been issued a certificate by the municipality for (a) Total destruction, (b) Large-scale partial destruction, or (c) Half destruction
 - ii. If the house where the primary household supporter resides or used to reside was in any of the following areas designated under the Special Measures Law for Nuclear Emergency Preparedness (Act No. 156 of 1999) (a) Warning Area, (b) Planned Evacuation Area, or (c) Emergency Evacuation preparation area.
- (b) Persons whose primary household supporter has died or gone missing due to a disaster.

② Exemption Application Procedure

Those who intend to receive an exemption from the entrance examination fee must submit an “Application form for exemption of entrance examination fee” with one of the following certificates (copy is acceptable) at the time of application. The application form for the fee exemption can be downloaded from the University website (Admission Information).

<https://www.utsunomiya-u.ac.jp/admission/examination.php>

1. Those applying under ① (a)(i) or (ii) above must submit a certificate of damage or injury suffered from the disaster.
2. Those applying under ① (b), in case of death, above must submit a death certificate of the primary household supporter; in case they are missing, must submit documents verifying that they are missing, or a declaration regarding the missing person. (Please submit these with the application form for the entrance examination fee exemption.)

Applicants having any questions about the documents to be submitted should contact the Administrative Office for Admission Center.

Any applicants who are determined not to fulfill the requirements for exemption will be contacted by telephone by the Administrative Office for Admission Center.

I X. Precautions for taking the examination

1. The following actions will be considered misconduct. However, actions that are permitted in the explanation at the time of the examination shall not be considered misconduct. If you commit any misconduct, you will be instructed to stop taking the exam and leave the room immediately, and you will not be allowed to take the exam again. In addition, all scores for the selection category that you have taken will be canceled. Furthermore, depending on the situation, we may take measures such as submitting a damage report to the police regarding the misconduct.

- A. If the application form and photo card created based on the registered information contain false content due to intentionally registering false information for the online application.
Deliberately making a false entry on the application form or examination ticket in the selection process other than the online application (affixing a photo of someone other than the applicant on the examination ticket or photo card.
Deliberately making false entries on the answer sheet (such as writing an examinee number other than your own number on the answer sheet)
- B. Cheating (placing or looking at notes, copies, etc. related to exam subjects on the desk, etc., looking at the contents of books such as textbooks, reference books, etc., looking at other examinees' answers, etc., obtaining answers from others, etc.)
- C. Telling other examinees the answers or helping them cheat
- D. Taking the distributed question booklet out of the examination room before the examination time ends
- E. Taking the answer sheet out of the examination room
- F. Opening the question booklet or starting the exam before the supervisor marks the start of the exam
- G. Using unapproved rulers (including pencils with ruler functions), compasses, abacuses, graph paper, and other tools during the examination
- H. Using electronic devices such as mobile phones, smartphones, wearable terminals, tablet terminals, electronic dictionaries, IC recorders, earphones, music players, etc.
* Earphones will be considered as being used even if they are just worn on the ears. (If you wish to use hearing aids, etc. during the examination due to illness, injury, or disability, prior consultation is required regarding special considerations for taking the examination and attending the school)
- I. After the supervisor has marked the end of the exam, disobeying the instructions and holding your pencil or eraser or continuing to write answers
- J. Engaging in other acts prohibited by the explanation at the time of the examination.

2. In addition to the actions mentioned in 1., the following may be considered as misconduct. However, actions that are permitted in the explanation at the time of the examination shall not be considered misconduct. If you do not follow instructions, etc., and are found to have acted fraudulently, the same policies as in 1. will apply.

<<https://www.utsunomiya-u.ac.jp/convenient/campuslife/exemption.php>>

Make inquiries regarding this system to the Student Affairs Division.

XIV. Special Cases of Educational Methods as Stipulated in Article 14 of the Graduate School Establishment Standards

If it is found particularly necessary from an educational standpoint, the University may provide special cases of educational methods as stipulated in Article 14 of the Graduate School Establishment Standards for students who wish to apply for “Special Screening for Applicants with Full-time Employment.” Based on this provision, the Graduate School of Regional Development and Creativity may, if necessary, provide evening classes (after the regular classroom hours (17:40–20:50)), offer the same subjects twice a week, and consolidate the periods of research and surveys required for the final project. If you seek to benefit from these special provisions, please consult with the research supervisor of their choice before you apply, and then fill ☒ in the Special Provisions on Educational Methods in the Application Form.

※ Article 14 of the Graduate School Establishment Standards

During studies at a graduate school, if special measures are deemed necessary for educational purposes, education may be provided through an appropriate method, such as class sessions or research instructions at night or other specified periods.

XV. Extended Registration Period System

This system caters to students for whom it difficult to complete the program within the standard 2 year period because of employment or other reasons by permitting them to extend their period of study (up to a maximum of 4 years) in order to facilitate systematic course planning and effective learning. Course planning and the total number of credits are the same as under the standard programs, which offers a significant reduction in time load per year.

When approval to extend the registration period has been granted, the two-year master’s program can be completed, for example, in three years. In such case, the two-year tuition will be paid over a three-year period, which means the financial burden per year is also reduced by distributing the two-year tuition (four terms) over three years (six terms). (If tuition is revised, recalculation will be made based on the revised fee.)

In order to be accepted into this system for extending the registration period, applicants must submit the required documents to the Dean of Utsunomiya University and obtain permission.

If, due to changing circumstances, an individual is unable to complete the program within the extended period, a further extension may be requested up to a maximum of six years in total. The further extended period in excess of the standard extended period will be considered to be setback years and standard tuition shall apply. Students may newly apply for this extended registration period during the school year or revise the extension period (from 3 years to 4 years or from 4 years to 3 years) only once.

The application period for this program is as follows:

(1) New Application

① Upon entry into the program

During the enrollment procedure in March prior to the start of the enrollment year

② During the school year

Until the end of February of the preceding academic year before the start of the relevant year

(2) Extension or Shortening of the Extended Period

If you wish to extend the registration period, submit a change in the registration period by the last day of the month prior to the final month of the extended period. If you wish to shorten the extended period, submit a change in the registration period by the last day of the month prior to the intended month of completion

Make inquiries regarding this system to the Yoto Division of Student Affairs and Education (telephone 028-689-6014).

Details will be provided to successful applicants at a later date.

XVI. Contact Information for each Graduate Program

If you do not know the contact information for the research supervisor of their choice, or have other inquiries about the major or Graduate Program, please contact the following.

XVII. List of Faculty Members

This is a list of faculty members who provide research guidance in the Graduate School of Regional Development and Creativity.

From the page of the Graduate Program you wish to apply for, select one research supervisor based on the field of research, and **be sure to contact the research supervisor of your choice to obtain him/her approval.** Please enter the name of the research supervisor of their choice when you register for the online application.

Advance consultation are limited to matters related to research activities and the curriculum after enrollment. We cannot answer questions related to entrance examination such as questions about past examination questions.

There may be a limit to the number of students accepted by the supervisor to ensure substantial guidance time, or due to limitations on the facilities and equipment of each laboratory. In this case, even if they pass the examination, the applicant may not be able to receive guidance from the research supervisor of their choice.
