

April 2024 Admission

Master's Degree Program
Graduate School of Regional Development and Creativity
Utsunomiya University

Round 2 Recruitment

General Screening

Special Screening for Applicants with Full-Time Employment

Special Screening for International Students

Special Screening for Third-Year Undergraduate Students

Special Screening for Experienced Persons in International Exchange/Cooperation

Utsunomiya University

“A Wealth of Ideas for the Community and
New Knowledge for the World”

For those applicants who have suffered from a disaster such as earthquake, wind, or flood damage, Utsunomiya University can provide an exemption from the entrance examination fee. For details, please see page 49. In addition, the university is willing to provide support to those candidates for whom the entrance fee and tuition are an exceptional financial burden. Thus, students who cannot meet the financial needs for enrollment should consult the university for support.

The following graduate programs are not offered in English.

Community Design Studies
Irrigation, Drainage and Rural Engineering
Community and Human Development

※All dates and times are in Japan time

☆ Overall Schedule

【General Screening】 【Special Screening for Applicants with Full-Time Employment】 【Special Screening for International Students】 【Special Screening for Experienced Persons in International Exchange/Cooperation】

	All Graduate Programs
Online Application Pre-Registration Period	Thursday, November 2 , 2023 to Thursday, November 9 , 2023 3:00 p.m.
Period of Receiving Applications	Tuesday, November 7 , 2023 to Thursday, November 9 , 2023 From 9:00 a.m. to 4:00 p.m. (excluding Saturdays and Sundays)
Entrance Examination	Saturday, December 9 , 2023
Announcement of Acceptance	Thursday, December 21 , 2023 Scheduled for 1:30 p.m.

Points of Attention

○ The Special Screening for Experienced Persons in International Exchange/Cooperation is only available for the Graduate Program in Global and Area Studies and the Graduate Program in Multicultural Studies.

Handling of personal information

Personal information submitted to apply to the program (e.g., name, date of birth, gender, address, academic records, and entrance examination results) are used within the range of purposes listed below and shall be handled with appropriate care.

- ① Administrative operations leading up to entering the program (e.g., applicant screening and entrance formalities)
- ② Administrative operations after entering the program (e.g., issuance of student IDs, guidance counseling, creation of lists of names, etc.) and for student life-related matters (e.g., scholarships, exemption from tuition fees, etc.)
- ③ Other administrative operations required to carry out education, research, and student support, and to prepare statistical and analytical data, etc.

Inquiries

Administrative Office for Admission Center, Utsunomiya University
350 Mine-machi, Utsunomiya-shi, 321-8505 Tel: 028-649-5405

Online Application Flow

The process to complete the application is as follows.

STEP
1

Preliminary Preparation

Please prepare a computer with an Internet connection and a color printer.
The required documents may take some time to be issued.
Please start preparing early, and be sure to have them on hand before you apply.

STEP
2

Accessing the Application Site

From online application site ▶ <https://e-apply.jp/ds/utsunomiya-gs/>

STEP
3

Register for the My Page

According to the instructions on the screen, enter the required information to register for the My Page.
If you have already registered for the My Page, proceed to STEP4.

- ① If you register for the first time, log in from My Page Registration
- ② Register your e-mail address and click on Send an e-mail for temporary registration >
- ③ Click on To log-in page from the user registration screen.
- ④ A default password and a URL for the definitive registration will be sent to your registered e-mail address.
*Configure your e-mail settings to receive e-mails from the domain of "@e-apply.jp".
- ⑤ On the log-in screen, click on log-in using your registered e-mail address and the "default password" you received in step ④.
- ⑥ Change your default password.
- ⑦ Enter your personal information and click on Next
- ⑧ Confirm your personal information and click on Register this information

STEP

5

Payment of Entrance Examination Fee

1 Payment by credit card

Select this when you register your application details, and complete the payment.

[Credit cards accepted]

VISA, Master, JCB, AMERICAN EXPRESS, MUFG card, DC card, UFJ card, NICOS card

Payment completed at the time of registration of application

2 Payment via online banking

After registering your application details, you will be redirected to the financial institution's site. Please follow the instructions on the screen to make your payment.

※ You must have an online banking account to make your payment.

Completion of the procedure on the Web

3 Payment at a convenience store

Take note of the number required for payment displayed after registration of the contents of the application.

● Payable in cash

● Payable using the store terminal

Loppi

Multi-functional copy machine or Fami Port

4 Payment at ATMs of banks that accept PAY-EASY

After you have registered your application details, please take down the necessary number for payment, follow the instructions on the screen and make the payment

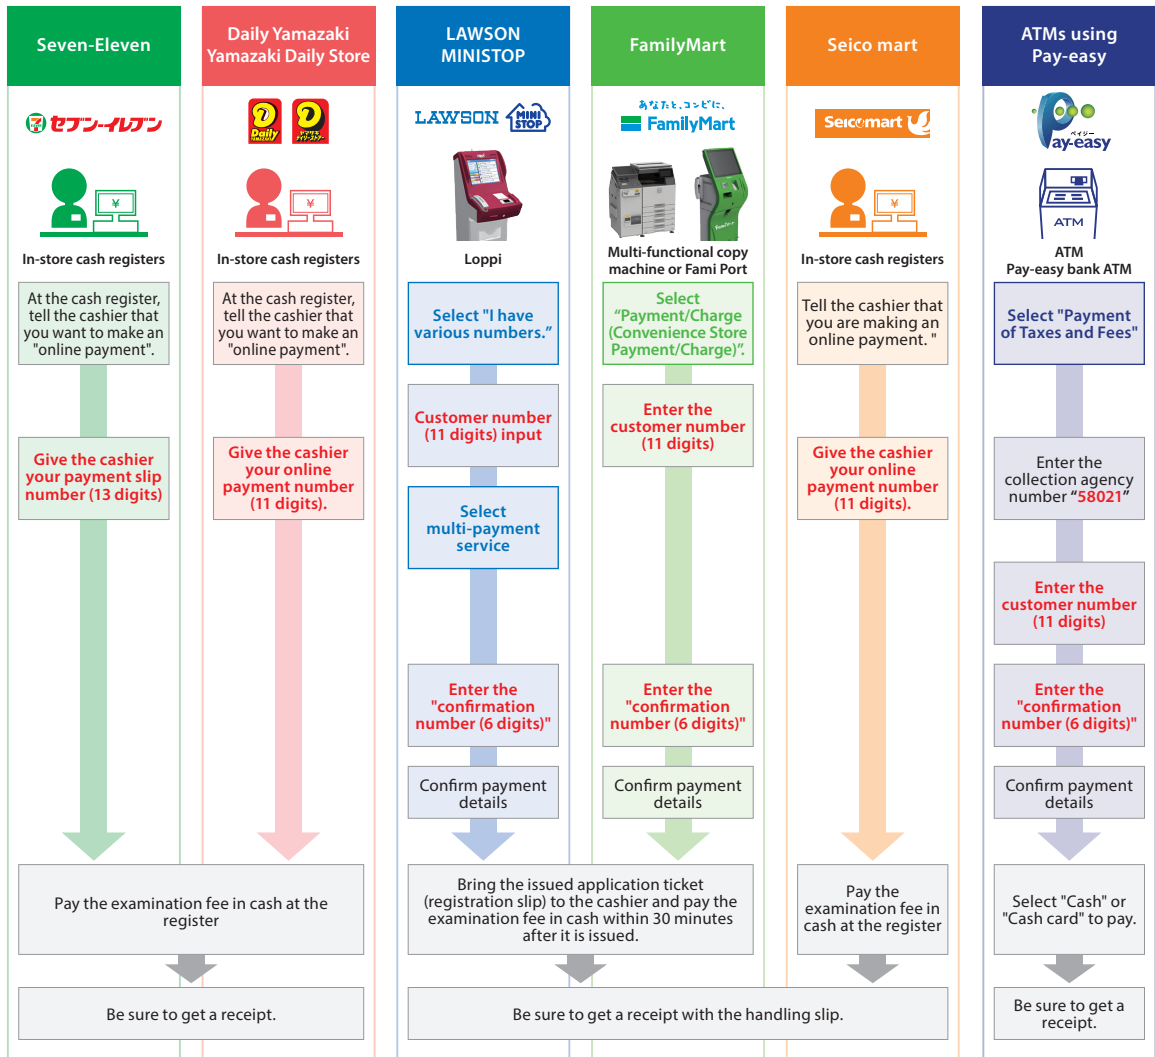

※ Check the "Select payment method" screen for available banks.

Please follow the instructions on the screen of the convenience store terminal or ATM and enter the necessary information. After confirming the information, please pay the entrance examination fee.

3 Convenience stores

4 Bank ATMs

STEP

6

Printing and Mailing the Required Documents

Print out all the downloadable documents in color after the application registration and the entrance examination fee have been paid and send them together with other required documents via registered/express mail (kakitome/sokutatsu mail) from the post office within the application period.

Prepare the documents required for the application by referring to the application guidelines. In addition to the documents to be printed from the online application site, there are other documents such as those that need to be requested from the universities and documents to be prepared by downloading the form from the homepage of the university, so please prepare these beforehand.

The mailing address of your application will be automatically printed on the address sheet.

Address sheet for submitting your application

Attach the sheet to a commercially available Kaku 2 envelope (24cm x 33.2cm).

Application documents

One copy is required for each application registration. Please refer to the application guidelines for the documents required for application.

※The entrance examination fee and necessary documents that have been received shall not be returned in any way except for those specified in the application guidelines.

How to print out the "Web Application Form"

- (1) Click on the  Print Application Form button shown on the My page.
- (2) Once the payment has been successfully completed, you will be able to click on the  Print Application Form button to print out the web application form.

Completion of application

Precautions when applying

The application process is completed by registering on the online application site, paying the entrance examination fee, and sending the required documents by mail. Please note that your application will not be accepted if the application documents are not received by the deadline even after registration is completed.

Online application is available 24 hours a day. The deadline for application registration and payment of the entrance examination fee is 3:00 p.m. on the application due date (business hours vary depending on the facility, such as convenience stores and ATMs). Please send the required documents by mail within the time specified in each application guideline. Please make sure to apply well in advance.

STEP

7

Printing the Examination Ticket

When the application is accepted and the application form can be printed, you will be notified through the e-mail address you have registered. If you do not receive the e-mail, please log in to the online application site on the day before the examination, print the form out on an A4 paper, single-sided and in color, and bring this with you on the day of the examination.

Overview of the Graduate School of Regional Development and Creativity

【Philosophy】

『The School will foster highly capable human resources who support the creation of social design and innovation to solve the problems of the 21st century and contribute to establishing a sustainable and prosperous society while promoting unique and competitive research in science, technology, and innovation for the Sustainable Development Goals (STI for SDGs).』

【“Region” in the Graduate School of Regional Development and Creativity】.

The School does not define “region” simply as a space or sphere in the geographical or physical sense of the word. According to our definition, “region” is a dynamic and diverse concept that refers to a research theme established in response to the issue at hand. Further, it is part of an interactive chain consisting of “local,” “regional,” “national,” and “global” components.

More specifically, we promote education and research for a wide range of fields, corresponding to the community, urban, regional, national, and international levels.

【Division • Graduate Program】

Division of Social Design (Enrollment Capacity : 77)

Graduate Program	Degree Awarded	Enrollment Capacity(standard)
Community Design Studies	Master of Arts	(8)
Agricultural and Rural Economics	Master of Agriculture	
Architecture and Building Engineering	Master of Engineering	(38)
Civil Engineering	Master of Engineering	
Irrigation, Drainage and Rural Engineering	Master of Agriculture	
Global and Area Studies	Master of Global Studies	(26)
Multicultural Studies	Master of Arts	
Studies on Community and Human Development	Master of Arts	(5)

Division of Engineering and Agriculture (Enrollment Capacity : 258)

Graduate Program	Degree Awarded	Enrollment Capacity(standard)
Optical Engineering	Master of Optical Science and Engineering	(54)
Molecular Agriculture	Master of Molecular Agriculture	
Material and Environmental Chemistry	Master of Engineering	(57)
Agricultural Biological Chemistry	Master of Agriculture	
Mechanical and Intelligent Engineering	Master of Engineering	(47)
Information, Electrical and Electronic Systems Engineering	Master of Engineering	(82)
Agricultural and Environmental Sciences	Master of Agriculture	(18)
Forest Production and Conservation	Master of Agriculture	

[Educational Mission]

Division of Social Design

- Graduate Program in Community Design Studies

Human resources with the ability to design communities by acquiring advanced knowledge and skills in community design, and who can contribute to the creation of sustainable and prosperous local communities.

- Graduate Program in Agricultural and Rural Economics

Human resources with the ability to design social systems related to food, agriculture, and rural areas by acquiring advanced knowledge and skills in agriculture and rural economics, and who can contribute to the creation of sustainable and prosperous local communities.

- Graduate Program in Architecture and Building Engineering

Human resources who can acquire advanced knowledge and skills in architecture, work as designers, technicians, and researchers in architecture, and contribute to the creation of sustainable and prosperous local communities.

- Graduate Program in Civil Engineering

Human resources who can contribute to the creation of sustainable and prosperous local communities by acquiring advanced engineering technology in civil engineering, and who can design comfortable, safe, and strong social infrastructures.

- Graduate Program in Irrigation, Drainage and Rural Engineering

Human resources who can contribute to the creation of sustainable and prosperous local communities by acquiring advanced knowledge and skills in agricultural civil engineering, and who can design good agricultural and rural infrastructures.

- Graduate Program in Global and Area Studies

Human resources who can design a society from a global perspective, and who can contribute to the creation of sustainable and prosperous local communities by acquiring advanced knowledge and skills to understand and solve various problems occurring in Japan and around the world.

- Graduate Program in Multicultural Studies

Human resources who have acquired advanced knowledge and skills related to multicultural coexistence, who can contribute to the creation of sustainable and prosperous local communities, and who can design a multicultural society where people from different cultures, languages, ideologies, religions, values, and positions can live together.

- Graduate Program in Community and Human Development Studies

Human resources who can contribute to the creation of sustainable and prosperous local communities by acquiring advanced knowledge and skills in community and human development studies, and who can design social systems related to the “hearts and minds” of the people from the perspective of human thought, life, and health.

Division of Engineering and Agriculture

- Graduate Program in Optical Engineering

Human resources who can acquire advanced knowledge and skills related to optics, who have the ability to serve as hands-on engineers and researchers, and who can contribute to the creation and development of sustainable and prosperous local communities by leading creation and development in the wide world of optical technology.

- Graduate Program in Molecular Agriculture

Our mission is to provide advanced knowledge and skills in molecular agriculture, to give students molecule-level expertise based on analytical techniques and the expression mechanisms of genetic information, and to contribute to the creation of sustainable and prosperous local communities.

- Graduate Program in Material and Environmental Chemistry

Human resources who have the ability to acquire advanced knowledge and technology on material chemistry that they can utilize in diverse settings, contributing to the creation of sustainable and prosperous local communities.

- Graduate Program in Agricultural Biological Chemistry

Human resources who can contribute to the creation of sustainable and prosperous local communities by acquiring advanced knowledge and skills in biochemistry, and who have the practical ability to work on macro as well as micro-level challenges.

- Graduate Program in Mechanical and Intelligent Engineering

Human resources who can acquire advanced knowledge and skills related to intelligent machines, work as internationally recognized researchers and engineers, and contribute to the creation of sustainable and prosperous local communities.

- Graduate Program in Information, Electrical and Electronic Systems Engineering

Human resources who can acquire advanced knowledge and skills related to electricity, electronics, and information and communication, work as internationally recognized researchers and engineers, and contribute to the creation of prosperous local communities through the discovery of new problems and formulation of new challenges.

- Graduate Program in Agricultural and Environmental Sciences

Human resources who can contribute to the creation of a sustainable and prosperous local community by acquiring advanced knowledge and technologies related to agricultural production and processing, effective reuse of bio-resources, environmental conservation, wildlife management, etc., thereby helping to establish new agriculture to achieve labor-saving and high-quality production.

- Graduate Program in Forest Production and Conservation

Human resources that can contribute to the creation of a sustainable and prosperous local community by acquiring advanced knowledge and skills related to forest and forestry, thus contributing to the construction of diverse and lasting relationships between forests and humans and the utilization of forest resources.

Admissions Policy of the Graduate School of Regional Development and Creativity (Master's Degree Program)

1.Desired Candidates

[Graduate School of Regional Development and Creativity]

- (1) Individuals with the basic academic skills required for learning and research
- (2) Individuals who have the ability to think creatively and act independently and are willing to take on the challenges of new fields with enthusiasm
- (3) Individuals with a strong interest in and motivation to contribute to the local community by acquiring specialized knowledge, skills, and practical abilities

[Division of Social Design]

- (1) Individuals who have the basic academic skills necessary to study and research the designs of sustainable human societies and social environments where diverse people can coexist in harmony
- (2) Individuals who wish to develop their creative abilities while improving their skills in social design
- (3) Individuals with a strong interest in and enthusiasm for contributing to the local community through social design

○ Graduate Program in Community Design Studies

- (1) Individuals with the basic academic skills in such fields as policy science, community development, and lifestyle culture necessary to study community design
- (2) Individuals who are willing to look at the community, learn from the practices on the ground, and try to solve new challenges
- (3) Individuals who have a strong interest in and willingness to contribute to the local community through community design studies

○ Graduate Program in Agricultural and Rural Economics

- (1) Individuals who have the basic academic skills in the social sciences (economics, sociology, history, etc.) necessary to study agriculture and rural economics
- (2) Individuals who have a high level of logical thinking ability, wish to proactively learn from the real world, and are willing to try to solve new challenges related to food, agriculture, and rural areas
- (3) Individuals with a strong interest in and willingness to contribute to the local community through agriculture and rural economics

○ Graduate Program in Architecture and Building Engineering

- (1) Individuals with the basic academic skills in architectural structures, architectural planning, architectural environment engineering, and building materials required to learn architecture
- (2) Individuals willing to learn the relationship between architecture and the changes in the global environment and community, and to challenge new creations from a variety of perspectives from local to global.
- (3) Individuals with a strong interest in and enthusiasm for contributing to the local community through architecture

○ **Graduate Program in Civil Engineering**

- (1) Individuals with the basic skills in such fields as structural engineering, water engineering, geotechnical engineering, civil engineering planning, and civil engineering materials science necessary to study civil engineering
- (2) Individuals willing to learn about the relationship between social infrastructure and the changes in the global environment and community, and challenge new creations from a variety of perspectives from local to global.
- (3) Individuals with a strong interest in and enthusiasm for contributing to the community through civil engineering

○ **Graduate Program in Irrigation, Drainage and Rural Engineering**

- (1) Individuals who have the basic academic skills related to soil, water, and the rural environment necessary to study agricultural civil engineering
- (2) Individuals willing to learn about the relationships between the global environment and local changes, and between the agricultural and rural infrastructures, and to challenge new creations from diverse perspectives from local to global.
- (3) Individuals with a strong interest in and willingness to contribute to the local community through agricultural civil engineering

○ **Graduate Program in Global and Area Studies**

- (1) Individuals with the basic academic skills in international cooperation, political science, economics, and regional studies necessary to study international studies
- (2) Individuals who are interested in global issues and are willing to take on the challenge of solving new issues by acquiring a broad interdisciplinary education and the advanced practical skills required for problem-solving
- (3) Individuals with a strong interest in and willingness to contribute to the community through global and area studies

○ **Graduate Program in Multicultural Studies**

- (1) Individuals who have the basic academic skills in sociology, literature and cultural studies, psychology, linguistics, and human rights necessary to study multicultural studies
- (2) Individuals who are willing to learn in-depth about the formation of societies in which people from different cultures, languages, ideologies, religions, values, and positions live together and take on the challenge of solving new issues
- (3) Individuals with a strong interest in and willingness to contribute to the local community through multicultural studies

○ **Graduate Program in Community and Human Development Studies**

- (1) Individuals with the basic academic skills in education and psychology, health and life sciences, and linguistics and arts necessary to study community and human development
- (2) Individuals who can think creatively and act independently, and are willing to try to solve new challenges related to human development
- (3) Individuals with a strong interest in and willingness to contribute to the local community through human development studies

[Division of Engineering and Agriculture]

- (1) Individuals with the basic academic skills in the natural sciences required to study and research innovation
 - (2) Individuals who wish to develop their creative skills while improving their expertise in the fields of engineering and agriculture related to innovation
 - (3) Individuals with a strong interest in and willingness to contribute to the community through innovation
- **Graduate Program in Optical Engineering**
- (1) Individuals with the basic academic skills in mathematics, physics, and optics necessary to study optical engineering
 - (2) Individuals who are highly interested in fields related to optical engineering and who are willing to take on creative and original challenges
 - (3) Individuals with a strong interest in and willingness to contribute to the community through optical engineering
- **Graduate Program in Molecular Agriculture**
- (1) Individuals with the basic skills in molecular biology, genetics, and physiology necessary to study molecular agriculture
 - (2) Individuals who are able to understand life phenomena at the molecular level, have a strong interest in issues in agriculture and the life sciences and molecular analysis techniques and are willing to take up the challenge of using them in the fields of agriculture, forestry, and fisheries
 - (3) Individuals with a strong interest in and willingness to contribute to the community through molecular agriculture
- **Graduate Program in Material and Environmental Chemistry**
- (1) Individuals with the basic academic skills in physical chemistry, organic chemistry, and inorganic chemistry necessary to learn material and environmental chemistry
 - (2) Individuals willing to take on the challenge of developing functional materials and solving environmental problems in the chemistry-based manufacturing industry
 - (3) Individuals with a strong interest in and enthusiasm for contributing to the local community through material chemistry
- **Graduate Program in Agricultural Biological Chemistry**
- (1) Individuals with the basic academic skills in chemistry and biochemistry related to the properties and functions of compounds and bioactive substances required to study agricultural biological chemistry
 - (2) Individuals willing to challenge the development of functional materials and solve environmental problems in industry and public institutions in the fields of food, pharmaceuticals, and cosmetics
 - (3) Individuals with a strong interest in and willingness to contribute to the local community through biochemistry
- **Graduate Program in Mechanical and Intelligent Engineering**
- (1) Individuals who have the basic academic skills in thermodynamics, fluid engineering, mechanical dynamics, material mechanics, and mathematics necessary to study mechanical and intelligent engineering
 - (2) Individuals who are interested in mechanical and intelligent engineering and “manufacturing” and who are willing to take on the challenge of research problems and practical and applied manufacturing, while thinking creatively and independently
 - (3) Individuals with a strong interest in and willingness to contribute to the community through mechanical and intelligent engineering

○ **Graduate Program in Information, Electrical and Electronic Systems Engineering**

- (1) Individuals who have the basic academic skills in information mathematics, basic information theory, electromagnetics, and electrical circuits necessary to study information, electrical, and electronic systems engineering
- (2) Individuals who are willing to take on the challenge of developing advanced systems that connect “people” and “things” on the basis of information, electrical, and electronic systems engineering
- (3) Individuals with a strong interest in and willingness to contribute to the community through information, electrical, and electronic systems engineering

○ **Graduate Program in Agricultural and Environmental Sciences**

- (1) Individuals with the basic academic skills in bioresource sciences and agricultural environmental engineering necessary to study agricultural and environmental sciences
- (2) Individuals who have a strong interest in and enthusiasm for solving problems associated with agricultural production, and who are willing to use the latest technologies in agriculture and forestry production
- (3) Individuals with a strong interest in and willingness to contribute to the local community through agricultural and environmental sciences

○ **Graduate Program in Forest Production and Conservation**

- (1) Individuals with the basic academic skills in forest production and conservation, forest management policy, forest engineering, and forest production and utilization required to study forest production conservation
- (2) Individuals who have acquired advanced knowledge and research skills in the fields of forest, forestry, and forest industry and who will be willing to take on the challenge of solving various issues as professionals and researchers in the future.
- (3) Individuals with a strong interest in and willingness to contribute to the local community through forest production conservation

2. Basic Policy of the regarding the Screening of Applicants

- (1) Individuals who have the skills and thinking ability required for learning and research in the Graduate Program will be given priority
- (2) Individuals who have an interest in issues in specialized fields and border and interdisciplinary areas, and the willingness to acquire knowledge and skills, an independent attitude, logical thinking abilities, the ability to express themselves, and communication skills will also be considered in the evaluation.

The following table shows how, in each screening category, applicants' knowledge and skills required for learning and research at the Graduate School of Regional Development and Creativity (Master's Degree Program) will be examined and evaluated based on the above-mentioned basic screening policy. Applicants' foreign language ability will be evaluated on the basis of their submitted scores on external exams.

Screening Category	The skills and thinking ability required for learning and research in the Graduate Program	Willing to take on the challenges of new fields with enthusiasm	Strong interest in and motivation to contribute to the local community
General Screening	Foreign Language (English) Specialization Subjects Oral Examination	Oral Examination Application Documents	Oral Examination Application Documents
Special Screening by Recommendation	Foreign Language (English) Oral Examination Application Documents	Oral Examination Application Documents	Oral Examination Application Documents
Special Screening for Applicants with Full-Time Employment	Foreign Language (English) Oral Examination Application Documents	Oral Examination Application Documents	Oral Examination Application Documents
Special Screening for International Students	Foreign Language (English or Japanese) Specialization Subjects Oral Examination	Oral Examination Application Documents	Oral Examination Application Documents
Special Screening for Third-Year Undergraduate Students	Foreign Language (English) Specialization Subjects Oral Examination	Oral Examination Application Documents	Oral Examination Application Documents
Special Screening for Experienced Persons in International Exchange/Cooperation	Foreign Language (English) Oral Examination Application Documents	Oral Examination Application Documents	Oral Examination Application Documents

Guidelines on Applying to the Graduate School of Regional Development and Creativity (Master’s Degree Program) Round 2

I . Enrollment Capacity by Major

Major	Enrollment Capacity	April Admission	
		Screening Category	Capacity
Division of Social Design	77	General Screening	46
		Special Screening by Recommendation※	31
		Special Screening for Applicants with Full-Time Employment Special Screening for International Students Special Screening for Third-Year Undergraduate Students Special Screening for Experienced Persons in International Exchange/Cooperation	A few applicants
Division of Engineering and Agriculture	258	General Screening	155
		Special Screening by Recommendation※	103
		Special Screening for Applicants with Full-Time Employment Special Screening for International Students Special Screening for Third-Year Undergraduate Students	A few applicants

Points of Attention

- For General Screening, Special Screening for Applicants with Full-Time Employment, Special Screening for International Students, and Special Screening for Experienced Persons in International Exchange/Cooperation, applications will be accepted in two rounds, Round 1 and Round 2 recruitment. Applicants may apply in either or both of the rounds, provided, however, that the applicants submit the application form (including the entrance examination fee) for each application within the specified period.
- The enrollment capacity for the General Screening is the total number of applicants in Round 1 and Round 2 of recruitment. Round 2 of recruitment will be held even if the enrollment capacity is met in Round 1 (a few applicants will be recruited).
- Special Screening for Experienced Persons in International Exchange/Cooperation is only available in the Graduate Program in Global and Area Studies and the Graduate Program in Multicultural Studies under the Division of Social Design.

II. Application Procedure

(1) Application Method

Only online applications are accepted. The application procedure is as follows:

Step 1	Checking Application Guidelines	Before proceeding with the application, read the application guidelines carefully and review their contents.
▼		
Step 2	Registration of Online Application (See page iii for details.)	Use the website below to access the online application and enter the necessary information. (https://e-apply.jp/ds/utsunomiya-gs/)
▼		
Step 3	Payment of the Entrance Examination Fee (See page iv for details.)	Complete payment of the entrance examination fee according to the instructions on the online application site.
▼		
Step 4	Printing Required Documents	Print out the required documents from the online application site.
▼		
Step 5	Sending of Required Documents	Send the required documents printed from the online application site and the university website, along with all other required documents using the registered mail/express delivery [kakitome/sokutatsu] so that they arrive at our university within the application period.
▼		
Step 6	Printing the Examination Ticket	If your application is accepted, you will be able to print out the examination ticket from the online application site after the end of the application period. Each applicant must print this out and bring this with them on the day of the examination.

(2) Application Period

	Application period	Deadline for registration of online application and payment of the entrance examination fee	Deadline for receiving application documents (Must arrive on or before)
General Screening Special Screening for Applicants with Full-Time Employment Special Screening for International Students Special Screening for Third-Year Undergraduate Students Special Screening for Experienced Persons in International Exchange/Cooperation	From Tuesday, November 7, 2023 to Thursday, November 9, 2023	Thursday, November 9, 2023 3:00 p.m.	Thursday, November 9, 2023 4:00 p.m.

Application documents received after the deadline will not be accepted, so please send them well in advance, taking into consideration the postal situation.

(3) Submission Method and Address

As a general rule, applications should be sent via registered or express mail (kakitome/sokutatsu). If there are unavoidable circumstances that prevent you from submitting your application by mail, please submit it in person between 9:00 a.m. and 4:00 p.m. during the application period (excluding Saturday, Sunday and Holiday).

〒321-8505 Administrative Office for Admission Center, Utsunomiya University, 350 Mine-machi, Utsunomiya-shi, Tochigi

(4) Entrance Examination Fee

Entrance Examination Fee: ¥30,000

Please refer to the payment methods on the online application site and complete the payment using one of the following methods: convenience store payment, post office/bank ATM, internet banking, or credit card.

The entrance examination fee will not be refunded for any reason after the application documents have been received.

(5) Preliminary Preparations

Before registering for the online application, please check and prepare the following in advance.	
Preparing your Computer	<p>The online application can be completed using the following:</p> <p><Browser></p> <ul style="list-style-type: none">• Latest version of Microsoft Edge• Latest version of Google Chrome• Latest version of Mozilla Firefox• Apple Safari 8 or later <p>※ Do not use multiple tabs simultaneously for the application. Having multiple tabs open to complete your application simultaneously may result in entries not being transferred to other tabs or other errors.</p> <p>※ We recommend using a computer to complete your application, especially since it requires you to print documents. If you are using a mobile device such as a smartphone or tablet, you can browse the site; however, we do not recommend using these since the screen may not be displayed correctly from some devices.</p>
Preparing e-mail address and settings	<p>An e-mail address is required for the application, so please prepare an e-mail address beforehand. You may use email addresses from your smartphones or mobile phones. If you need to alter your settings to be able to receive mail from specified domains, make sure that you can receive mail from the following domain:</p> <p>@e-apply.jp</p> <p>The following e-mails will be sent to the e-mail address you have registered at the time of application.</p> <ol style="list-style-type: none">① A test e-mail during registration of information for the online application,② an automated e-mail sent upon completion of the application registration,③ an automated e-mail sent upon completion of payment of the entrance examination fee, and④ an e-mail notification when the examination ticket becomes available for viewing and printing. <p>※ Do not change your e-mail address until you have printed your examination ticket.</p>
Photograph of the Applicant (Preparation of documents)	<p>To register for the online application, you will need to submit your photograph (any file format, size up to 2MB). The photograph will be used for identification purposes, so please be ready with a color photograph of you taken within three months prior to the application, front view, upper body, no hat, and a plain background. Please note that the application may not be accepted if your photo hinders identification, such as those shown [Examples of unacceptable photos] below.</p> <p>[Examples of unacceptable photos] Blurred images, dark backgrounds, faces turned sideways, makeup or bangs covering the eyes, etc., which make it difficult to verify the applicant's identity; photos of more than one person; photos that have been altered; photos that have been developed and then reshot; etc.</p>
Preparing other required documents	<p>Please prepare documents in addition to the forms to be printed from the online application site, such as a certificate of (Expected) graduation and a research plan, in advance so that they can be submitted in time for the application period.</p>
Kaku 2 envelope	<p>Prepare a commercially available Kaku 2 envelope (240mm × 332mm) to submit the application documents.</p>
Preparation for printing forms (printer, papers, etc.)	<p>The forms from the online application site must be printed in color on A4-size plain paper. The application form must be printed on both sides, so please prepare a color printer and printing paper (plain paper, PPC paper, common OA paper, copy paper, etc.) that can be printed on both sides. You may also use printing services at public facilities or convenience stores, as long as they meet the printing requirements. (Please be careful with the handling of personal information.)</p>

III. Method of Screening Applicants

The screening method differs according to the screening type (1. General Screening 2. Special Screening for Applicants with Full-Time Employment 3. Special Screening for International Students 4. Special Screening for Third-Year Undergraduate Students 5. Special Screening for Experienced Persons in International Exchange/Cooperation). Please read the page for the screening category for which you wish to apply.

1. General Screening

(Conducted in all majors and Graduate Programs)

(1) Application Requirements

Individuals to whom any of the following criteria apply.

- ① Those who have graduated or are expected to graduate from a university by the time of enrollment.
- ② Those who have received or are expected to receive a bachelor's degree by the time of enrollment from the National Institution for Academic Degrees and Quality Enhancement of Higher Education (formerly the National Institution for Academic Degrees and University Evaluation) in accordance with the provisions of Article 104, Paragraph 7 of the School Education Law.
- ③ Those who have completed or are expected to complete 16 years of school education in a foreign country by the time of enrollment.
- ④ Those who have completed or are expected to complete 16 years of school education from a foreign country by completing correspondence courses offered by a foreign school in Japan by the time of enrollment.
- ⑤ Those who, by the time of enrollment at an educational institution in Japan, have completed or are expected to complete a course (only for those who are deemed to have completed 16 years of school education in the foreign country) from a foreign university in the school education system of the foreign country, separately designated by the Minister of Education, Culture, Sports, Science and Technology.
- ⑥ Those who have completed, or are expected to complete by the time of enrollment, specialized training at a vocational school (limited to courses with a period of study of four years or more, and meeting the standards specified by the Minister of Education, Culture, Sports, Science and Technology) separately designated by the Minister of Education, Culture, Sports, Science and Technology on or after being so specified by the Minister of Education, Culture, Sports, Science and Technology.
- ⑦ Those who have been designated by the Minister of Education, Culture, Sports, Science and Technology (Ordinance of the Ministry of Education No. 5 of 1953)
- ⑧ Those who have studied at a university for 3 or more years, who have completed 15 years of school education in a foreign country, those who have completed 15 years of school education in a foreign country by taking correspondence courses offered in Japan or by a foreign school in Japan, those who have completed a course at a foreign school in Japan, who are at an educational facility positioned in the school education system of a foreign country (only for those considered to have completed 15 years of school education in the foreign country), and have completed a course designated separately by the Minister of Education, Culture, Sports, Science and Technology, and has been recognized by the Graduate School of Regional Development and Creativity as having obtained the prescribed credits with excellent results.
- ⑨ Those who have been enrolled in a graduate school of another university pursuant to the provisions of Article 102, Paragraph (2) of the School Education Law and have been found by the Graduate School of Regional Development and Creativity to possess sufficient academic ability to receive education at a graduate school.
- ⑩ Those recognized by the Graduate School of Regional Development and Creativity as having academic skills equivalent or superior to someone who has graduated from a university based on an individual application screening, and shall have reached 22 years of age by the time of enrollment.

(2) Application Requirements Screening

Those who intend to apply under the application requirement ⑥ should contact the Administrative Office for the Admission Center by Thursday, October 19, 2023.

Those who intend to apply under application requirements ⑧ ⑨ or ⑩ should contact the Administrative Office for the Admission Center as soon as possible and complete the procedures for individual admissions screening by Thursday, October 19, 2023. No applications shall be accepted after the deadline.

(3) Prior Contact and Consultation with the Research Supervisor of their choice before Application

Before applying, please check the "XVIII: List of Faculty Members " on page 66, and be sure to contact the research supervisor in advance and consult your research topic and content after admission.

Advance consultation are limited to matters related to research activities and the curriculum after enrollment. We cannot answer questions related to entrance examination such as questions about past examination questions. We cannot answer questions the answers to the entrance examination questions.

For past entrance examination questions, please refer to page 50 " IX: Past entrance examination questions."

(4) Application Documents

For documents marked ◇, please print out from the online application site after registering for the online application.

For documents marked ◆, please download forms from the university's website (Admissions Information).

<<https://www.utsunomiya-u.ac.jp/admission/examination.php>>

For documents marked *, please download from the university's website (Graduate School Admissions).

<<https://www.utsunomiya-u.ac.jp/admission/graduate.php>>

- Except for the original TOEIC® Listening & Reading Test (TOEIC® L&R Official Score Certificate and the original TOEIC® L&R IP Individual Score Report), documents received will not be returned for any reason.
- If the application is in a language other than Japanese and English, the applicant may be required to submit a translation.
- No changes may be made to the contents of the accepted documents. In addition, if there is a change to your address, contact location, or telephone number, please contact the Administrative Office for the Admission Center without delay.
- If it is found that the items stated in the submitted documents are erroneous, your admission will be canceled.
- The entrance examination fee shall not be refunded for any reason after receipt of the application documents.

Application Documents	Who Should Submit	Notes
◇Application Form	Everyone	• Please print on both sides of the A4 size paper from the online application site.
* Research Plan	Applicants to the Graduate Programs in Community Design Studies, Global and Area Studies, and Multicultural Studies.	• Please submit a research plan in Japanese (about 1,000 characters) or English (about 500 words) using the format specified by the University.

Application Documents	Who Should Submit	Notes
Certificate of (expected) Graduation	Everyone	<ul style="list-style-type: none"> • Please submit a document issued by the president or head of the previous school • Individuals graduating from a university in a country or territory where graduation certificates are not issued, please consult with the Administrative Office for the Admission Center before applying.
Transcript	Everyone	<ul style="list-style-type: none"> • Please submit a transcript issued and sealed by the president or head of the previous school • If you are expecting to graduate from Utsunomiya University, you may use a copy printed from the transcript machine, and there is no need to seal your transcript. • Individuals graduating from universities in a country or territory where transcripts are not issued should consult with the Administrative Office for the Admission Center before applying.
TOEIC, TOEFL Certifications	All international students (excluding Japanese government-sponsored students, foreign government-sponsored students, and JICA students)	<ul style="list-style-type: none"> • Please submit the score sheet specified by the university under “IV. Foreign Language Examination” on page 43.
Degree Certificates	Those who fall under ②of (1)Application Requirement	<ul style="list-style-type: none"> • Issued by the National Institution for Academic Degrees and Quality Enhancement of Higher Education • If the applicant is expecting the degree to be conferred, they are expected to submit an Application for Degree Certificate issued by the head of the previous school in lieu of the degree certificate.
Certificates for Japanese government-sponsored students, foreign-government sponsored students, and JICA students	Japanese government-sponsored students (Research Students only), foreign government-sponsored students, and JICA students	<ul style="list-style-type: none"> • If you apply under this category, you will be exempt from the Achievement Test (Foreign Language (English) and Specialization Subjects) on submitting application documents for verification, so consult with the Administrative Office for the Admission Center about the certificates to be submitted before applying.
Resident’s card	Only for foreign nationals living in Japan	<ul style="list-style-type: none"> • Please submit the document with information on the status of residence and period of stay issued by the mayor of the city, town, or village of residence, but not the “My Number (individual ID number)” • Those who are currently enrolled in the university (including non-degree students and research students) are not required to submit their certificate of residence. They may instead submit a copy of their student ID. • Those who are not living in Japan, please consult the Administrative Office for the Admission Center before applying.

Application Documents	Who Should Submit	Notes
◆ Application form for those exempted from the Entrance Examination Fee	Exemption Applicants only	<p>Those who wish to apply for an exemption of the entrance examination fees under either (a) or (b) need not make the fee payment.</p> <p>(a) Those applying for fee exemption due to damage caused by the earthquake, wind, or flood should submit an “Application form for exemption of entrance examination fee.” See Section VIII “Entrance Examination Fee Exemption” on page 49 for more information.</p> <p>(b) Government-financed international students who intend to apply for an extension of the scholarship payment period will be exempted from the entrance examination fee upon designated application. Please contact the Administration Office for the Admission Center before applying.</p>
Envelope for the submission of application documents	Everyone	<ul style="list-style-type: none"> • Please prepare a commercially available Kaku 2 envelope (240mm × 332mm).
◇ Address sheet for submitting the application documents	Everyone	<ul style="list-style-type: none"> • Print out the address sheet in color from the online application site and attach it to the front side of the “Envelope for the submission of application documents.” • Please send it via registered express mail (kakitome/sokutatsu mail).

- The photograph to be uploaded to the online application page should be a clear, front-facing, upper-body picture without a hat, on a plain background, and must be taken within three months prior to the application. The photo ratio should be 4 × 3, and the file size should not exceed 2MB.

(5) Method of Screening

Applicants will be selected based on the results of the Achievement Test (Foreign Language (English) and Specialization Subjects), the Oral Examination, and Transcripts considered together.

Examination Subject	Notes
Foreign Language (English)	<i>TOEIC® L&R or TOEFL® scores will be converted.</i>
Specialization Subjects	Please refer to the “List of General Screening Specialization Subjects” below.
Oral Examination	Oral examination will be conducted by each Program.

Japanese and foreign government-sponsored students and JICA students are exempt from the Achievement Test (Specialization Subjects and Foreign Language (English)).

List of General Screening Specialization Subjects

⊙: Compulsory Subjects Δ: Elective Subjects (reported at the time of application) ★: Elective Subjects (selected at the time of the examination)

Major	Graduate Program	Number of Subjects	Specialization Subject
Division of Social Design	Community Design Studies	1	⊙ Community Design Studies
	Agricultural and Rural Economics	2	⊙ Specialization Subjects in the field of education and research for which you are applying (see page 44) Δ Specialization Subjects other than the field of education and research for which you are applying (see page 44) the specializations under the Graduate Program in Agricultural and Rural Economics
	Architecture and Building Engineering	2	⊙ Fundamentals of Architecture ⊙ Specialization Subjects in the field of education and research for which you are applying (see page 44) ※ The Graduate Program in Architecture and Building Engineering allows you to bring a calculator. However, calculators of electronic devices such as mobile phones and smartphones are not allowed.
	Civil Engineering	2	⊙ Fundamentals of Civil Engineering ※ Questions on mechanics and mathematics. ⊙ General Civil Engineering ※ Questions will be asked from the following six fields. Select three fields to answer at the time of the examination. <u>Structures, Hydraulics, Soil, Planning, Materials, Management (Project Management/Disaster Prevention Management)</u>
	Irrigation, Drainage and Rural Engineering	1	⊙ Specialization Subjects in the field of education and research for which you are applying (see page 45)
	Global and Area Studies	1	⊙ Global and Area Studies (Essay)
	Multicultural Studies	1	⊙ Multicultural Studies ※ Questions will be asked from the following four fields. Select one field to answer at the time of the examination. <u>Thought, Art and History, Culture and Comparative Culture, Literature and Comparative Literature, Society, Psychology, Educational, Language and Communication</u>
	Studies on Community and Human Development	2	⊙ Community and Human Development (Essay). ⊙ Specialization Subjects in the field of education and research for which you are applying (see page 45)

Major	Graduate Program	Number of Subjects	Specialization Subject
Division of Engineering and Agriculture	Optical Engineering	2	◎ Geometrical Optics ◎ Specialization Subjects in the field of education and research for which you are applying (see page 46) ※ Those who wish to enter the educational and research fields Human Informatics, Kansei Engineering, or Perceptual Information Processing should report one selected subject at the time of application.
	Molecular Agriculture	1	◎ Molecular Agriculture
	Material and Environmental Chemistry	1	◎ Inorganic Chemistry, Analytical Chemistry, Organic Chemistry, Chemical Engineering, Physical Chemistry, in general <div style="border: 1px solid black; padding: 5px; margin-top: 5px;"> ※ The Graduate Program in Material and Environmental Chemistry allows you to bring a calculator. However, calculators of electronic devices such as mobile phones and smartphones are not allowed. </div>
	Agricultural Biological Chemistry	1	◎ Specialization Subjects in the field of education and research for which you are applying (see page 46)
	Mechanical and Intelligent Engineering	2	★ Select two subjects from Material Mechanics and Material Mechanical Studies, Heat and Flow, Mechanics and Control, and Mechatronics.
	Information, Electrical and Electronic Systems Engineering	2	≪ A. Those applying for the educational and research fields of Electromagnetic Energy Engineering, Electronic Physics Engineering, Information and Communication Systems Engineering, ◎ Electromagnetism ◎ Electrical Circuits ≪ B. Those who intend to apply for educational and research fields other than those listed in A. △ Select two subjects from Linear Algebra, Calculus, Discrete Mathematics, Computer Systems, and Data Structures and Algorithms ※ Please report the two subjects selected at the time of the application.
	Agricultural and Environmental Sciences	1	◎ Specialization Subjects in the field of education and research for which you are applying (see page 47)
	Forest Production and Conservation	1	◎ Specialization Subjects in the field of education and research for which you are applying (see page 47)

(6) Examination Dates and Venue

※ Examination venue vary depending the Graduate Program you apply to

Graduate Program	Examination Date	Examination Time	Examination Type	Examination Venue
Community Design Studies	Saturday, December 9, 2023-	From 9:30 to 10:30 a.m.	Specialization Subjects	Yoto Campus
		1:00 p.m.	Oral examination	
Material and Environmental Chemistry	Saturday, December 9, 2023	From 9:30 to 11:30 a.m.	Specialization Subjects	
		1:00 p.m.	Oral examination	
Architecture and Building Engineering Civil Engineering Optical Engineering Mechanical and Intelligent Engineering Information, Electrical and Electronic Systems Engineering	Saturday, December 9, 2023	From 9:30 to 11:30 a.m.	Specialization Subjects ※ Answer two subjects in 120 minutes, without a break	
		1:00 p.m.	Oral examination	
Irrigation, Drainage and Rural Engineering Molecular Agriculture Agricultural Biological chemistry Agricultural and Environmental Sciences Forest Production and Conservation	Saturday, December 9, 2023	From 9:30 to 10:30 a.m.	Specialization Subjects	Mine Campus
		1:00 p.m.	Oral examination	
Global and Area Studies Multicultural Studies	Saturday, December 9, 2023	From 10:30 to 11:30 a.m.	Specialization Subjects	
		1:00 p.m.	Oral examination	
Agriculture and Rural economics Studies on Community and Human Development	Saturday, December 9, 2023	From 9:30 to 11:30 a.m.	Specialization Subjects ※ Answer two subjects in 120 minutes, without a break	
		1:00 p.m.	Oral examination	

- ※ Bring your examination ticket on the day of the examination.
- ※ You will be informed of the assembly site on the day of the examination after the Examination Ticket notification (via email). Please arrive at the assembly site at the designated time (30 minutes before the start of the examination) and complete the registration. If you are not able to arrive by the specified time, as a general rule, you will be allowed to take the examination up to 30 minutes after the start of the examination, but you will not receive a time extension.

(7) Precautions

- ① If you have made an application based on the expectation of graduation or completion of a course under Application Requirements ①, ②, ③, ④, ⑤, or ⑥, but do not graduate or complete the course by the time of enrollment or have not been awarded a bachelor’s degree, your acceptance shall be revoked. Applicants will be required to submit a certificate of verification during the enrollment procedure.

- ② For inquiries about the major and Graduate Program, if you do not know how to contact the research supervisor of their choice, please check page 65 “XVII. Contact Information for each Graduate Program” and contact by email.

2. Special Screening for Applicants with Full-Time Employment **(Conducted in all majors and Graduate Programs)**

(1) Application Requirements

Individuals to whom any of the following criteria apply.

- ① Those who have graduated from a university
- ② Those who have received or are expected to receive a bachelor’s degree by the time of enrollment from the National Institution for Academic Degrees and Quality Enhancement of Higher Education (formerly the National Institution for Academic Degrees and University Evaluation) in accordance with the provisions of Article 104, Paragraph 7 of the School Education Law.
- ③ Those who have completed or are expected to complete 16 years of school education in a foreign country by the time of enrollment.
- ④ Those who have completed or are expected to complete 16 years of school education from a foreign country by completing correspondence courses offered by a foreign school in Japan by the time of enrollment.
- ⑤ Those who by the time of enrollment at an educational institution in Japan, have completed or are expected to complete a course (only for those who are deemed to have completed 16 years of school education in the foreign country) from a foreign university in the school education system of the foreign country that is separately designated by the Minister of Education, Culture, Sports, Science and Technology.
- ⑥ Those who have completed or are expected to complete by the time of enrollment specialized training at a vocational school (limited to courses with a period of study of four years or more, and meet the standards specified by the Minister of Education, Culture, Sports, Science and Technology) that is separately designated by the Minister of Education, Culture, Sports, Science and Technology on or after being so specified by the Minister of Education, Culture, Sports, Science and Technology.
- ⑦ Those who have been designated by the Minister of Education, Culture, Sports, Science and Technology (Ordinance of the Ministry of Education No. 5 of 1953)
- ⑧ Those who have studied at a university for three or more years, who have completed 15 years of school education in a foreign country, those who have completed 15 years of school education in a foreign country by taking correspondence courses offered in Japan or by a foreign school in Japan, those who have completed a course at a foreign school in Japan, who are at an educational facility positioned in the school education system of a foreign country (only for those considered to have completed 15 years of school education in the foreign country), and have completed a course designated separately by the Minister of Education, Culture, Sports, Science and Technology, and who have been recognized by the Graduate School of Regional Development and Creativity as having obtained the prescribed credits with excellent results.
- ⑨ Those who have been enrolled in the graduate school of another university pursuant to the provisions of Article 102, Paragraph (2) of the School Education Law and have been found by the Graduate School of Regional Development and Creativity to possess sufficient academic ability to receive education at a graduate school.
- ⑩ Those recognized by the Graduate School of Regional Development and Creativity as having academic skills equivalent or superior to someone who has graduated from a university-based on an individual application screening, and shall have reached 22 years of age by the time of enrollment.

※ “Full-Time Employment” under Special Screening for Applicants with Full-Time Employment is defined as at least one year of working experience after graduation from a university before entering a graduate school, or at least five years of working experience after completing compulsory education (including the period of

employment during higher school, university, etc.). The period of employment includes the period of time when the applicant was engaged in household work.

※ Those who wish to apply for Special Screening for Applicants with Full-Time Employment and will continue to work after enrollment will be subject to the special measures for educational methods as stipulated in Article 14 of the Graduate School Establishment Standards. For details, refer to page 64.

(2) Application Requirements Screening

Those who intend to apply under Application Requirements ⑥, should contact the Administrative Office for the Admission Center by Thursday, October 19, 2023.

Those who intend to apply under Application Requirements ⑧, ⑨ or ⑩ should contact the Administrative Office for the Admission Center as soon as possible and complete the procedures for the individual admissions screening of Application Requirements by Thursday, October 19, 2023. No applications will be accepted after the deadline.

(3) Prior Contact and Consultation with the Research Supervisor of their choice before Application

Before applying, please check the "XVIII: List of Faculty Members " on page 66, and be sure to contact the research supervisor in advance and consult your research topic and content after admission.

Advance consultation are limited to matters related to research activities and the curriculum after enrollment. We cannot answer questions related to entrance examination such as questions about past examination questions. We cannot answer questions the answers to the entrance examination questions.

(4) Application Documents

For documents marked ◇, please print out from the online application site after registering for the online application.

For documents marked ◆, please download forms from the university's website (Admissions Information).

<<https://www.utsunomiya-u.ac.jp/admission/examination.php>>

For documents marked *, please download from the university's website (Graduate School Admissions).

<<https://www.utsunomiya-u.ac.jp/admission/graduate.php>>

- Except for the original TOEIC® Listening & Reading Test (TOEIC® L&R Official Score Certificate and the original TOEIC® L&R IP Individual Score Report), documents received will not be returned for any reason.
- If the application is in a language other than Japanese and English, the applicant may be required to submit a translation.
- No changes may be made to the contents of the accepted documents. In addition, if there is a change to your address, contact location, or telephone number, please contact the Administrative Office for the Admission Center without delay.
- If it is found that the items stated in the submitted documents are erroneous, your admission will be canceled.
- The entrance examination fee shall not be refunded for any reason after receipt of the application documents.

Application Documents	Who Should Submit	Notes
◇Application Form	Everyone	• Please print on both sides of A4 size paper from the online application site.
*Research Plan	Everyone	• Based on this predetermined form, prepare in the order of 2000 in Japanese or about 1000 words in English.
*the summary of the applicant's activities during the period of	Everyone	• Please submit a research plan in Japanese (about 1,200 characters) or English (about 550 words) using the format specified by the University.

Application Documents	Who Should Submit	Notes
working experience		
Certificate of Graduation	Everyone	<ul style="list-style-type: none"> • Please submit a document issued by the president or head of the previous school • Individuals graduating from a university in a country or territory where graduation certificates are not issued, please consult with the Administrative Office for the Admission Center before applying.

List of Specialization Subjects for Special Screening for International Students

⊙: Compulsory Subjects Δ: Elective Subjects (reported at the time of application) ★: Elective Subjects (selected at the time of the examination)

Major	Graduate Program	Number of subjects	Specialization Subject
Division of Social Design	Community Design Studies	1	⊙ Community Design Studies
	Agricultural and Rural Economics	2	⊙ Specialization Subjects in the field of education and research for which you are applying (see page 44) Δ Specialization Subjects other than the field of education and research for which you are applying (see page 42); the specializations under the Graduate Program in Agricultural and Rural Economics
	Architecture and Building Engineering	1	⊙ Specialization Subjects in the field of education and research for which you are applying (see page 44) <div style="border: 1px solid black; padding: 5px; margin-top: 10px;">※ The Graduate Program in Architecture and Building Engineering allows you to bring a calculator. However, calculators of electronic devices such as mobile phones and smartphones are not allowed.</div>
	Civil Engineering	2	⊙ Fundamentals of Civil Engineering ※ Questions on <u>mechanics</u> and <u>mathematics</u> . ⊙ General Civil Engineering ※ Questions will be asked from the following six fields. Select three fields to answer at the time of the examination. <u>Structures, Hydraulics, Soil, Planning, Materials, Management (Project Management/Disaster Prevention Management)</u>
	Irrigation, Drainage and Rural Engineering	1	⊙ Specialization Subjects in the field of education and research for which you are applying (see page 45)
	Global and Area Studies	1	⊙ Global and Area Studies (Essay)
	Multicultural Studies	1	⊙ Multicultural Studies ※ Questions will be asked from the following four fields. Select one field to answer at the time of the examination. <u>Thought, Art and History, Culture and Comparative Culture, Literature and Comparative Literature, Society, Psychology, Educational, Language and Communication</u>
	Studies on Community and Human Development	2	⊙ Community and Human Development (Essay) ⊙ Specialization Subjects in the field of education and research for which you are applying (see page 45)

Major	Graduate Program	Number of subjects	Specialization Subject
Division of Engineering and Agriculture	Optical Engineering	2	◎ Geometric Optics ◎ Specialization Subjects in the field of education and research for which you are applying (see page 46) ※ Those who wish to enter the educational and research fields Human Informatics, Kansei Engineering, or Perceptual Information Processing should report one selected subject at the time of application.
	Molecular Agriculture	1	◎ Molecular Agriculture
	Material and Environmental Chemistry	1	◎ "Inorganic Chemistry, Analytical Chemistry, Organic Chemistry, Chemical Engineering, Physical Chemistry, in general <div style="border: 1px solid black; padding: 5px; margin-top: 10px;"> ※ The Graduate Program in Material and Environmental Chemistry allows you to bring a calculator. However, calculators of electronic devices such as mobile phones and smartphones are not allowed. </div>
	Agricultural Biological Chemistry	1	◎ Specialization Subjects in the field of education and research for which you are applying (see page 46)
	Mechanical and Intelligent Engineering	2	★ Select two subjects from Material Mechanics and Material Mechanical Studies, Heat and Flow, Mechanics and Control, and Mechatronics.
	Information, Electrical and Electronic Systems Engineering	2	<< A. Those applying for the educational and research fields of Electromagnetic Energy Engineering, Electronic Physics Engineering, Information and Communication Systems Engineering, ◎ Electromagnetism ◎ Electrical Circuits ----- << B. Those who are applying for educational and research fields other than those listed in A. △ Select two subjects from Linear Algebra, Calculus, Discrete Mathematics, Computer Systems, and Data Structures and Algorithms ※ Please report the two subjects selected at the time of the application.
	Agricultural and Environmental Sciences	1	◎ Specialization Subjects in the field of education and research for which you are applying (see page 47)
	Forest Production and Conservation	1	◎ Specialization Subjects in the field of education and research for which you are applying (see page 47)

(6) Examination Dates and Venue

※ Examination venue vary depending the Graduate Program you apply to
--

Graduate Program	Examination Date	Examination Time	Examination Type	Examination Venue
Community Design Studies Architecture and Building Engineering	Saturday, December 9, 2023	From 9:30 to 10:30 a.m.	Specialized Subject	Yoto Campus
		1:00 p.m.	Oral examination	
Material and Environmental Chemistry	Saturday, December 9, 2023	From 9:30 to 11:30 a.m.	Specialized Subject	
		1:00 p.m.	Oral examination	
Civil Engineering Optical Engineering Mechanical and Intelligent Engineering Information, Electrical and Electronic Systems Engineering	Saturday, December 9, 2023	From 9:30 to 11:30 a.m.	Specialized Subject ※ Answer two subjects in 120 minutes, without a break	
		1:00 p.m.	Oral examination	
Irrigation, Drainage and Rural Engineering Molecular Agriculture Agricultural Biological chemistry Agricultural and Environmental Sciences Forest Production and Conservation	Saturday, December 9, 2023	From 9:30 to 10:30 a.m.	Specialization Subjects	Mine Campus
		1:00 p.m.	Oral examination	
Global and Area Studies Multicultural Studies	Saturday, December 9, 2023	From 10:30 to 11:30 a.m.	Specialized Subject	
		1:00 p.m.	Oral examination	
Agriculture and Rural economics Studies on Community and Human Development	Saturday, December 9, 2023	From 9:30 to 11:30 a.m.	Specialization Subjects ※ Answer two subjects in 120 minutes, without a break	
		1:00 p.m.	Oral examination	

※ You will be informed of the assembly site on the day of the examination after the examination ticket notification (via email). Please arrive at the assembly site at the designated time (30 minutes before the start of the examination) and complete the registration. If you are not able to arrive by the specified time, as a general rule, you will be allowed to take the examination up to 30 minutes after the start of the examination, but you will not receive a time extension.

(7) Precautions

- ① If you have made an application based on the expectation of graduation or completion of a course under Application Requirements ①, ②, or ③, but do not graduate or complete the course by the time of enrollment, your acceptance shall be revoked. Applicants will be required to submit a certificate of verification during the enrollment procedure.
- ② For inquiries about the major and Graduate Programs, if you do not know how to contact the research supervisor of their choice, please check page 65 “XVII. Contact Information for each Graduate Program” and contact by email.

4. Special Screening for Third-Year Undergraduate Students

(Conducted by all majors and Graduate Programs)

(1) Application Requirements

Applicants who have been enrolled in a university in Japan for at least three years by the end of March 2024 and have been recognized by the Graduate School of Regional Development and Creativity as having earned the requisite credits with excellent grades. Applicants who meet all of the following requirements shall be within this scope of qualifications.

- ① As of the end of March 2024, the student must have been enrolled in a university for three years (excluding leaves of absence).
 - ② As of the end of March 2024, the student must have completed all required subjects (including all subjects related to basic education) expected to have been completed by the third year; further, the student must have acquired at least 4/5 of the total credits required for graduation, including these subjects; and at least 4/5 of the total credits earned must have an A(Excellent) grade or higher (at least 80 points out of 100 in a point evaluation).
 - ③ The applicant must have the recommendation of their dean or the department head from the university where they are enrolled.
- ※ Those who have graduated from a university and or are expected to graduate by March 31, 2024 (including early graduates) are not eligible to apply under the Special Screening for Third-Year Undergraduate Students.
- ※ Students enrolled through the Special Screening for Third-Year Undergraduate Students will be treated as if they had withdrawn from their undergraduate program. Therefore, they will not be eligible to appear for various state examinations or qualification examinations that require an undergraduate degree.

(2) Application Requirements Screening

Those who intend to apply should promptly contact the Administrative Office for the Admission Center and complete the procedures for the Individual Admissions Screening Application by October 19, 2023 (Thursday). At the time of the screening of the application requirements, applicants should present a certificate of the period of enrollment (specifying the items specified by the university), a Transcript (with results up to the first term of the third year), a course registration confirmation list showing the subjects to be taken in the second term of the third year, and a copy of the course guide of the university (affiliated program or department) that they are enrolled in. No applications are accepted will be accepted after this deadline.

(3) Prior Contact and Consultation with the Research Supervisor of their choice before Application

Before applying, please check the "XVIII: List of Faculty Members " on page 66, and be sure to contact the research supervisor in advance and consult your research topic and content after admission.

Advance consultation are limited to matters related to research activities and the curriculum after enrollment. We cannot answer questions related to entrance examination such as questions about past examination questions. We cannot answer questions the answers to the entrance examination questions.

For past entrance examination questions, please refer to page 50 " IX: Past entrance examination questions."

(4) Application Documents

For documents marked ◇, please print out from the online application site after registering for the online application.

For documents marked ◆, please download forms from the university's website (Admissions Information).

<<https://www.utsunomiya-u.ac.jp/admission/examination.php>>

For documents marked *, please download from the university's website (Graduate School Admissions).

<<https://www.utsunomiya-u.ac.jp/admission/graduate.php>>

- Except for the original TOEIC® Listening & Reading Test (TOEIC® L&R Official Score Certificate and the original TOEIC® L&R IP Individual Score Report), documents received will not be returned for any reason.
- If the application is in a language other than Japanese and English, the applicant may be required to submit a translation.
- No changes may be made to the contents of the accepted documents. In addition, if there is a change to your address, contact location, or telephone number, please contact the Administrative Office for the Admission Center without delay.
- If it is found that the items stated in the submitted documents are erroneous, your admission will be canceled.
- The entrance examination fee shall not be refunded for any reason after receipt of the application documents.

Application Documents	Who Should Submit	Notes
◇Application Form	Everyone	<ul style="list-style-type: none"> • Please print on both sides of A4 size from the online application site.
* Letter of Recommendation	Everyone	<ul style="list-style-type: none"> • Please submit a letter of recommendation issued and sealed by the dean or the department head from the university where the applicant is enrolled.
Transcript	Everyone	<ul style="list-style-type: none"> • Please submit a transcript issued and sealed by the president or head of the previous school • If you are expecting to graduate from Utsunomiya University, you may use a copy printed from the transcript machine, and there is no need to seal your transcript.
TOEIC, TOEFL Certifications	Everyone	<ul style="list-style-type: none"> • Please submit the score sheet specified by the university under “IV. Foreign Language Examination” on page 43.
Resident’s card	Only for foreign nationals living in Japan	<ul style="list-style-type: none"> • Please submit the document with information that contains the status of residence and period of stay issued by the mayor of the city, town, or village of residence, but not the “My Number (individual ID number)” • Those who are currently enrolled in the university (including non-degree students and research students) are not required to submit their certificate of residence. They may instead submit a copy of their student ID.
◆Application form for those exempted from the Entrance Examination Fee	Exemption Applicants only	<p>Those who wish to apply for an exemption from the entrance examination fee due to damage caused by the earthquakes, storms, or floods should submit an “Application form for Exemption of Entrance Examination Fee” and need not make the payment. See Section VIII “Entrance Examination Fee Exemption” on page 49 for more information.</p>
Envelopes for the submission of application documents	Everyone	<ul style="list-style-type: none"> • Please prepare a commercially available Kaku 2 envelope (240mm × 332mm).
◇Address sheet for submitting the application documents	Everyone	<ul style="list-style-type: none"> • Print out the address sheet in color from the online application site and attach it to the front side of the “Envelope for the submission of application documents.” • Please send it via registered express mail (kakitome/sokutatsu mail).

④ Sending Examination Tickets

- The photograph to be uploaded to the online application page should be a clear, front-facing, upper-body picture without a hat, on a plain background, and must be taken within three months prior to the application.
The photo ratio should be 4 × 3, and the file size should not exceed 2MB.

(5) Method of Screening

Applicants will be selected based on the results of the Achievement Test (Foreign Language (English) and Specialization Subjects), the Oral Examination, and Transcripts considered together.

Examination Subject	Notes
Foreign Language (English)	TOEIC® L&R or TOEFL® scores will be converted.
Specialization Subjects	Please refer to the “List of Specialization Subjects for Special Screening for Third-Year Undergraduate Students” below.
Oral Examination	Conducted by each degree program.

If you are not able to arrive by the specified time, as a general rule, you will be allowed to take the examination up to 30 minutes after the start of the examination, but you will not receive a time extension.

(7) Precautions

- ① If, after passing the Special Screening for Third-Year Undergraduate Students, the applicant fails to meet the requirements as per the Application Requirements by March 2024, the acceptance will be revoked.
- ② After passing the examination, applicants must submit a certificate confirming that the application requirements have been met (a certificate of withdrawal or a “certificate of acceptance of the application for withdrawal”), a transcript with all grades from the first to third year, and a certificate of the period of enrollment (specifying the

items designated by this university) by March 31, 2024.

- ③ For inquiries about the major and Graduate Programs, if you do not know how to contact the research supervisor of their choice, please check page 65, “XVII. Contact Information for each Graduate Program” and contact by email.

5. Special Screening for Experienced Persons in International Exchange/Cooperation

(Conducted by the Graduate Program in Global and Area Studies and the Graduate Program in Multicultural Studies)

(1) Application Requirements

As of March 31, 2024, applicants should have at least one year of experience in international exchange and cooperation activities (conducted by the Japan Overseas Cooperation Volunteers, NGO, NPOs) and meet any of the following criteria.

- ① Those who have graduated or are expected to graduate from a university by the time of enrollment.
- ② Those who have received or are expected to receive a bachelor's degree by the time of admission from the National Institution for Academic Degrees and Quality Enhancement of Higher Education (formerly the National Institution for Academic Degrees and University Evaluation) in accordance with the provisions of Article 104, Paragraph 7 of the School Education Law.
- ③ Those who have completed or are expected to complete 16 years of school education in a foreign country by the time of enrollment.
- ④ Those who have completed or are expected to complete 16 years of school education from a foreign country by completing correspondence courses offered by a foreign school in Japan by the time of enrollment.
- ⑤ Those who by the time of enrollment at an educational institution in Japan have completed or are expected to complete a course (only for those who are deemed to have completed 16 years of school education in the foreign country) from a foreign university in the school education system of the foreign country, separately designated by the Minister of Education, Culture, Sports, Science and Technology.
- ⑥ Those who have completed or are expected to complete by the time of enrollment, specialized training at a vocational school (limited to courses with a period of study of four years or more, and meeting the standards specified by the Minister of Education, Culture, Sports, Science and Technology) separately designated by the Minister of Education, Culture, Sports, Science and Technology on or after being specified by the Minister of Education, Culture, Sports, Science and Technology.
- ⑦ Those who have been designated by the Minister of Education, Culture, Sports, Science and Technology (Ordinance of the Ministry of Education No. 5 of 1953)
- ⑧ Those who have studied at a university for 3 or more years, who have completed 15 years of school education in a foreign country, those who have completed 15 years of school education in a foreign country by taking correspondence courses offered in Japan or by a foreign school in Japan, those who have completed a course at a foreign school in Japan, who are at an educational facility positioned in the school education system of a foreign country (only for those considered to have completed 15 years of school education in the foreign country), and have completed a course designated separately by the Minister of Education, Culture, Sports, Science and Technology, and have been recognized by the Graduate School of Regional Development and Creativity as having obtained the prescribed credits with excellent results.
- ⑨ Those who have been enrolled in a graduate school of another university pursuant to the provisions of Article 102, Paragraph (2) of the School Education Law and have been found by the Graduate School of Regional Development and Creativity to possess sufficient academic ability to receive education at a graduate school.
- ⑩ Those recognized by the Graduate School of Regional Development and Creativity as having academic skills equivalent or superior to someone who has graduated from a university-based on an individual application screening, and shall have reached 22 years of age by the time of enrollment.

(2) Application Requirements Screening

Those who intend to apply under application requirement ⑥ should contact the Administrative Office for the Admission Center by Thursday, October 19, 2023.

Those who intend to apply under application requirements ⑧, ⑨, or ⑩ should contact the Administrative Office for the Admission Center as soon as possible and complete the procedures for individual admissions screening by Thursday, October 19, 2023. No applications shall be accepted after the deadline.

(3) Prior Contact and Consultation with the Research Supervisor of their choice before Application

Before applying, please check the "XVIII: List of Faculty Members " on page 66, and be sure to contact the research supervisor in advance and consult your research topic and content after admission.

Advance consultation are limited to matters related to research activities and the curriculum after enrollment. We cannot answer questions related to entrance examination such as questions about past examination questions. We cannot answer questions the answers to the entrance examination questions.

(4) Application Documents

For documents marked ◇, please print out from the online application site after registering for the online application.

For documents marked ◆, please download forms from the university's website (Admissions Information).

<<https://www.utsunomiya-u.ac.jp/admission/examination.php>>

For documents marked *, please download from the university's website (Graduate School Admissions).

<<https://www.utsunomiya-u.ac.jp/admission/graduate.php>>

- Except for the original TOEIC® Listening & Reading Test (TOEIC® L&R Official Score Certificate and the original TOEIC® L&R IP Individual Score Report), documents received will not be returned for any reason.
- If the application is in a language other than Japanese and English, the applicant may be required to submit a translation.
- No changes may be made to the contents of the accepted documents. In addition, if there is a change to your address, contact location, or telephone number, please contact the Administrative Office for the Admission Center without delay.
- If it is found that the items stated in the submitted documents are erroneous, your admission will be canceled.
- The entrance examination fee shall not be refunded for any reason after receipt of the application documents.

Application Documents	Who Should Submit	Notes
◇Application Form	Everyone	• Please print on both sides of the A4 size paper from the online application site.
* Research Plan	Everyone	• Please submit a research plan in Japanese (about 1,000 characters) or English (about 500 words) using the format specified by the University.
* Summary of International Exchange/Cooperation	Everyone	• Please submit the university-prescribed form in Japanese (about 1,000 characters) or English (about 500 words).
Certificate of (Expected) Graduation	Everyone	• Please submit a document issued by the president or head of the previous school • Individuals graduating from a university in a country or territory where graduation certificates are not issued, please consult with the Administrative Office for the Admission Center before applying.
Transcript	Everyone	• Please submit a transcript issued and sealed by the president or head of the previous school • If you are expecting to graduate from Utsunomiya University, you may use a copy printed from the transcript machine, and there is no need to seal your transcript. • Individuals graduating from universities in a country or territory where transcripts are not issued should

Application Documents	Who Should Submit	Notes
		consult with the Administrative Office for the Admission Center before applying.
TOEIC, TOEFL Certifications	All international students (excluding Japanese government-sponsored students, foreign government-sponsored students, and JICA students)	<ul style="list-style-type: none"> • Please submit the score sheet specified by the university under “IV. Foreign Language Examination” on page 43.
Degree Certificates	(1) Those who fall under Application Requirement ②	<ul style="list-style-type: none"> • Issued by the National Institution for Academic Degrees and Quality Enhancement of Higher Education • If the applicant is expecting the degree to be conferred, please submit an Application for Degree Certificate issued by the head of your previous school in place of the degree certificate.
Certificates for Japanese government-sponsored students, foreign-government sponsored students, and JICA students	Japanese government-sponsored students (Research Students only), foreign government-sponsored students, and JICA students	<ul style="list-style-type: none"> • If you apply under this category, you will be exempt from the Achievement Test (Foreign Language (English)) on submitting application documents for verification, so consult with the Administrative Office for the Admission Center about the certificates to be submitted before applying.
Resident’s card	Only for foreign nationals living in Japan	<ul style="list-style-type: none"> • Please submit the document with information that contains the status of residence and period of stay issued by the mayor of the city, town, or village of residence, but not the “My Number (individual ID number)” • Those who are currently enrolled in the university (including non-degree students and research students) are not required to submit their certificate of residence. They may instead submit a copy of their student ID. • Those who are not living in Japan, please consult the Administrative Office for the Admission Center before applying.

Application Documents	Who Should Submit	Notes
◆ Application form for those exempted from the Entrance Examination Fee	Exemption Applicants only	Those who wish to apply for an exemption of the entrance examination fees under either (a) or (b) need not make the fee payment. (a) Those applying for fee exemption due to damage caused by the earthquake, wind, or flood should submit an “Application form for the exemption of entrance examination fee.” See Section VIII “Entrance Examination Fee Exemption” on page 49 for more information. (b) Government-financed international students who intend to apply for an extension of the scholarship payment period will be exempted from the entrance examination fee upon designated application. Please contact the Administration Office for the Admission Center before applying.
Envelopes for the submission of application documents	Everyone	• Please prepare a commercially available Kaku 2 envelope (240mm × 332mm).
◇ Address sheet for submitting the application documents	Everyone	• Print out the address sheet in color from the online application site and attach it to the front side of the “Envelope for the submission of application documents.” • Please send it via registered express mail (kakitome/sokutatsu mail).

- The photograph to be uploaded to the online application page should be a clear, front-facing, upper-body picture without a hat, on a plain background, and must be taken within three months prior to the application. The photo ratio should be 4 × 3, and the file size should not exceed 2MB.

(5) Method of Screening

Applicants will be selected based on the results of the Achievement Test (Foreign Language (English)), the Oral Examination, Research Plan, Summary of International Exchange/Cooperation, and Transcripts considered together.

Examination Subject	Notes
Foreign language (English)	<i>TOEIC® L&R or TOEFL® scores will be converted.</i>
Oral examination	The oral examination will be conducted including the contents of the submitted Research Plan and Summary of International Exchange/Cooperation.

Japanese government-sponsored students, foreign government-sponsored students, and JICA students are exempt from the Achievement Test (Foreign Language (English)).

(6) Examination Date and Venue

Graduate Program	Examination Date	Examination Time	Examination Type	Examination Venue
Global and Area Studies Multicultural Studies	Saturday, December 9, 2023	1:00 p.m.	Oral examination	<u>Mine Campus</u>

- ※ You will be informed of the assembly site on the day of the examination after the examination ticket notification (via email). Please arrive at the assembly site at the designated time (30 minutes before the start of the examination) and complete the registration. If you are not able to arrive by the specified time, as a general rule, you will be allowed to take the examination up to 30 minutes after the start of the examination, but you will not receive a time extension.

(7) Precautions

1. If you have made an application based on the expectation of graduation or completion of a course under Application Requirements ①, ②, ③, ④, ⑤, or ⑥, but do not graduate or complete the course by the time of enrollment, or have not been awarded a bachelor's degree, your acceptance shall be revoked. Applicants will be required to submit a certificate of verification during the enrollment procedure.
2. For inquiries about the major and Graduate Program, if you do not know how to contact the research supervisor of their choice, please check page 65, "XVII. Contact Information for each Graduate Program," and contact by email.

IV. Foreign Language Examination

All categories of screening use the score of external foreign language tests without the university conducting its own written examinations. Please submit one of the following score sheets at the time of application.

※③ The Examination for Japanese University Admission (EJU) and ④ the Japanese Language Proficiency Test (JLPT) can be selected only for those applying under Special Screening for International Students.

Language	External Examination Used	Notes
English	① TOEIC® Listening & Reading Test (TOEIC® L&R) (Public test, IP test)	<ul style="list-style-type: none"> • Please submit the original Official Score Certificate of the TOEIC® L&R, or the original Individual Score Report of the IP-Test (including College TOEIC), which is held at various organizations, conducted after April 2021. Since the IP Test (Online version) does not issue Score Reports, please print out and submit the PDF of your score. • TOEIC® S&W test and TOEIC Bridge® scores are not accepted. • The original certificate submitted will be returned after the application is accepted.
	② TOEFL® (iBT, iBT Special Home Edition, Revised Paper-delivered)	<ul style="list-style-type: none"> • Please submit your “Official Score Report” after taking the TOEFL® test conducted after April 2021. • Please enclose a copy of the Test Taker (or Examinee) Score Report or a printout of the Test Taker Score Report PDF with the application. <p>You are responsible for applying to the ETS for the Official Score Report in the US. The Utsunomiya University group code is 7976.</p> <p>※ If the TOEFL iBT® “Official Score Report” is used in your application, the Test Date score will be used. (MyBest™ scoring will not be used.)</p>
Japanese (※)	③ Examination for Japanese University Admissions	<ul style="list-style-type: none"> • Please enclose a copy of your EJU score report from the 1st 2022 Examination (November) or later. <p>(After receiving the application, the university shall inquire about the applicant’s performance from the Japan Student Services Organization.)</p>
	④ Japanese Language Proficiency Test (N1 or N2)	<ul style="list-style-type: none"> • Please submit the original copy of the Japanese-Language Proficiency Test Certificate of Result and Scores from the 1st 2021 Examination or later. • The submitted original certificate will be returned after the application is accepted.

V. List of Specialization Subjects by Educational and Research Field (General Screening, Special Screening for International Students)

This is a list of “Specialization Subjects” specified by Graduate Program and educational research field in General Screening and Special Screening for International Students.

Major	Graduate Program	Field of Education and Research	Specialization Subjects
Division of Social Design	Agricultural and Rural Economics	Agriculture Management	Agriculture Management
		Agricultural Policy	Agricultural Policy
		Food Economics	Agricultural Economics
		Environmental Economics	Micro- and Macroeconomics
		Agricultural Geography, Rural Geography	Agricultural Geography
		International agricultural economics and management	International agricultural economics and management
	Architecture and Building Engineering	Architectural Structures	Architectural Structure
		Building Steel Structures	
		Architectural Planning, Environmental Psychology	Architectural Planning
		Urban Planning, Architectural Planning	
		Architectural Environment, Urban Environment	Architectural Environment
		Architectural Environment, Environmental Control	
		Architectural and Urban Environment, Environmental Architecture	
		Building Materials, Structures	Building Materials
		Building Materials	
		Building Materials, Construction	
		Architectural Theory, Architectural Design, Urban Design	Architectural Design
		Architectural Design	

Major	Graduate Program	Field of Education and Research	Specialization Subjects
Division of Social Design	Irrigation Drainage and Rural Engineering	Agricultural Water Management and Hydrology	Agricultural Water Management and Hydrology
		Soil and Environmental Biophysics	Soil and Environmental Biophysics
		Soil and Water Conservation	Soil and Water Conservation
		Rural Planning	Rural Planning
		Rural Ecology Engineering	Rural Ecology Engineering
	Studies on Community and Human Development	Education (Philosophy of Education)	Education and Psychology
		Developmental Psychology, Cognitive Psychology	
		Sociology of Emotion	Course Education and Sociology of Education
		Course Education (Social Studies)	
		Environmental Education for Living, Clothing Science	Life Sciences
		Health education, School health	Sports and Health Science
		Educational Engineering, Information Education	Information and Science Education
		Science Education, Science Teaching, Learning Sciences	
		Music Expression, Music Education	Music
		Arts and Crafts, Urushi Lacquer Art	Art
		Painting Techniques, Theory and History of Arts	

Major	Graduate Program	Field of Education and Research	Specialization Subjects
Division of Engineering and Agriculture	Optical Engineering	Polarization Engineering, Optical metrology, Optomechatronics	Wave Optics
		Information Photonic, Laser Processing, Computational Imaging	
		Plasma Science and Engineering	
		Visualization and Image Processing	
		Photodynamics, Mathematical Optical Physics	
		Optical Science & Engineering, Nano Photonics	
		Information Photonics	
		Laser Material Processing, Optical Information Processing, Optical metrology	
		Applied Optics	
		Optical Communication Engineering, Polymer Photonics	
		Biological Optics and Bioimaging	
		Human Informatics, Kansei Engineering	Select one subject out of Linear Algebra, Calculus, Discrete Mathematics, Computational Systems, and Data Structures and Algorithms ※ Please state the selected subject at the time of application.
		Perceptual Information Processing	
		Agricultural Biological Chemistry	Biochemistry
	Biotic Function Chemistry		
	Food Chemistry		Food Chemistry
	Organic Chemistry of Natural Products		Organic Chemistry of Natural Products
	Applied Microbiology		Applied Microbiology
	Polymeric Biomaterials Science		Polymeric Biomaterials Science
	Biopolymer Chemistry		
Natural Products Chemistry	Natural Products Chemistry		
Forest Chemistry	Forest Chemistry		
Wood Material	Wood Anatomy		
Nutritional Biochemistry	Nutritional Biochemistry		

Major	Graduate Program	Field of Education and Research	Specialization Subjects
Division of Engineering and Agriculture	Agricultural and Environmental Sciences	Crop Science	Crop Science
		Horticulture	Horticulture
		Agricultural and Environmental Microbiology	Plant and Soil Microbiology
		Soil Science	Soil Science
		Field Science of Horticultural Crops	Field Science of Horticultural Crops
		Animal Function and Morphology	Animal Physiology
		Animal Morphology	Animal Morphology
		Physiology of Animal Reproduction	Livestock Industry
		Plant Thremmatology	Plant Thremmatology
		Applied Entomology	Applied Entomology
		Molecular Entomology	Molecular Entomology
		Weed Science	Weed Science
		Vegetation Studies	Plant Ecology
		Conservation Biology	Wildlife Management
		Environment and Information Engineering of Biology	Environment and Information Engineering of Biology
		Environmental Control in Biology	Environmental Control in Biology
		Field Mechanics	Field Mechanics
		Postharvest Technology	Production and Distribution Systems Engineering
		Agro-Environmental System Analysis	Agro-Environmental System Analysis
		Food Distribution Engineering	Food Distribution Engineering
	Forest Production and Conservation	Forest Operation Systems	Forest Civil Engineering
		Forest Policy	Forest Policy
		Forest Botany	Arboriculture
		Forest Products Management	Forest Conservation
		Planning for Forest Management	Planning for Forest Management
		Forest Economics	Forest law

VI. Advance Consultations on Special Accommodations for Examinations and Studies Due to an Illness, Injury, or Physical Handicap

If you need special accommodations for the entrance examination or for your studies due to an illness, injury, or physical disability, please consult the Administrative Office of the Admission Center as early as possible before the final day of the advance consultation period stated below. If you require special accommodations for the entrance examination or for your studies due to a situation that occurred after the consultation period, please contact the Administrative Office of the Admission Center as soon as possible.

(1) Final Day for Advance Consultation

General Screening, Special Screening for Applicants with Full-Time Employment, Special Screening for International Students and Special Screening for Experienced Persons in International Exchange/Cooperation:

Thursday, October 19, 2023

(2) Submission of an Application for Advance Consultation

Fill in the following information on the Application Form for Prior Consultation (form is available on the website <http://www.utsunomiya-u.ac.jp/admission/examination.php>) and submit it along with a doctor's medical certificate (a copy is acceptable) to the Administrative Office for Admission Center.

- ① Name, address, contact telephone number, and a convenient time you can be reached
- ② Types of screening under which you plan to apply, and the major/Graduate Program
- ③ Details about the severity of illness, injury, or physical disability
- ④ Accommodations you need for the entrance examination
- ⑤ Accommodations you need for during the course of your studies
- ⑥ Accommodations you received at your prior institution
- ⑦ Description of your daily condition

VII. Export Security Measures

Utsunomiya University has adopted the “National University Security Export Control” protocol based on the “Foreign Exchange and Foreign Trade Law.” This is directed at preventing international students from interfering with the maintenance of international peace and security by exporting restricted education or research content. **International students should contact the Research Supervisor of their choice soon as possible to confirm their application.**

The following regulations have been established to comply with the security export control protocol.

- If a security export control examination is conducted, it may take a long time to complete, and depending on the examination results, the examinee may not be able to receive the desired education or research.
- After enrollment, there may be restrictions on the technology provided and the equipment used. In addition, if regulations are strengthened due to the revision of laws, etc., it may become impossible to continue existing research work.

VIII. Entrance Examination Fee Exemption

In order to alleviate the economic burden of those who were affected by disasters etc. and to secure opportunities for students to enter the university, the university will take special measures to exempt the entrance examination fee as follows.

① Exemption requirements

The exemption applies for applicants whose primary household resides in an area to which the Great East Japan Earthquake Disaster or the Relief Act (Act No. 118 of 1947) after March 2011 is applied (hereinafter referred to as “the disaster”), and who fall under any of the following categories:

- (a) Where the primary household supporter (father, mother, or any person who has the highest household income; hereinafter referred to as the “primary household supporter”) resides in an area covered by the Disaster Relief Act and resides in any of the following:
 - i. If the house where the primary household supporter resides has been issued a certificate by the municipality for (a) Total destruction, (b) Large-scale partial destruction, or (c) Half destruction
 - ii. If the house where the primary household supporter resides or used to reside was in any of the following areas designated under the Special Measures Law for Nuclear Emergency Preparedness (Act No. 156 of 1999) (a) Warning Area, (b) Planned Evacuation Area, or (c) Emergency Evacuation preparation area.
- (b) Persons whose primary household supporter has died or gone missing due to a disaster.

② Exemption Application Procedure

Those who intend to receive an exemption from the entrance examination fee must submit an “Application form for exemption of entrance examination fee” with one of the following certificates (copy is acceptable) at the time of application. The application form for the fee exemption can be downloaded from the University website (Admission Information).

<https://www.utsunomiya-u.ac.jp/admission/examination.php>

1. Those applying under ① (a)(i) or (ii) above must submit a certificate of damage or injury suffered from the disaster.
2. Those applying under ① (b), in case of death, above must submit a death certificate of the primary household supporter; in case they are missing, must submit documents verifying that they are missing, or a declaration regarding the missing person. (Please submit these with the application form for the entrance examination fee exemption.)

Applicants having any questions about the documents to be submitted should contact the Administrative Office for Admission Center.

Any applicants who are determined not to fulfill the requirements for exemption will be contacted by telephone by the Administrative Office for Admission Center.

IX. Past Entrance Examination Questions

(1) Disclosure of Past Entrance Examination Questions

The Graduate School of Regional Development and Creativity discloses questions from the previous five ~~two~~-years' entrance examinations (specialization subjects). However, answers are not disclosed.

○ * Viewing at the counter

Site of Disclosure: Administrative Office for Admission Center (Mine Campus) and Yoto Division of Student Affairs and Education (Yoto Campus)

Time of Viewing: 9:00–17:00 (excluding Saturdays, Sundays, public holidays, and the year-end holidays)

○ Viewing on the Internet

On this website <https://www.utsunomiya-u.ac.jp/admission/past-other-questions.php>

※ We do not disclose questions over the Internet with parts that may be problematic under copyright laws.

(2) Others

- ① We cannot answer inquiries about entrance examination questions.
- ② The textbooks, reference books, etc. used for each specialized subject in the entrance examination are as follows.

Graduate Program	Specialization Subjects	Textbooks,reference books,etc

X. Precautions for taking the examination

1. The following actions will be considered misconduct. However, actions that are permitted in the explanation at the time of the examination shall not be considered misconduct. If you commit any misconduct, you will be instructed to stop taking the exam and leave the room immediately, and you will not be allowed to take the exam again. In addition, all scores for the selection category that you have taken will be canceled. Furthermore, depending on the situation, we may take measures such as submitting a damage report to the police regarding the misconduct.

A. If the application form and photo card created based on the registered information contain false content due to intentionally registering false information for the online application.

Deliberately making a false entry on the application form or examination ticket in the selection process other than the online application (affixing a photo of someone other than the applicant on the examination ticket or photo card.

Deliberately making false entries on the answer sheet (such as writing an examinee number other than your own number on the answer sheet)

B. Cheating (placing or looking at notes, copies, etc. related to exam subjects on the desk, etc., looking at the contents of books such as textbooks, reference books, etc., looking at other examinees' answers, etc., obtaining answers from others, etc.)

C. Telling other examinees the answers or helping them cheat

D. Taking the distributed question booklet out of the examination room before the examination time ends

E. Taking the answer sheet out of the examination room

F. Opening the question booklet or starting the exam before the supervisor marks the start of the exam

G. Using unapproved rulers (including pencils with ruler functions), compasses, abacuses, graph paper, and other tools during the examination

H. Using electronic devices such as mobile phones, smartphones, wearable terminals, tablet terminals, electronic dictionaries, IC recorders, earphones, music players, etc.

* Earphones will be considered as being used even if they are just worn on the ears. (If you wish to use hearing aids, etc. during the examination due to illness, injury, or disability, prior consultation is required regarding special considerations for taking the examination and attending the school)

I. After the supervisor has marked the end of the exam, disobeying the instructions and holding your pencil or eraser or continuing to write answers

J. Engaging in other acts prohibited by the explanation at the time of the examination.

2. In addition to the actions mentioned in 1., the following may be considered as misconduct. However, actions that are permitted in the explanation at the time of the examination shall not be considered misconduct. If you do not follow instructions, etc., and are found to have acted fraudulently, the same policies as in 1. will apply.

A. Not putting away in your bag, or holding or wearing, during the examination assistive devices such as rulers (including pencils with ruler functions, etc.), compasses, abacuses, graph paper, etc., electronic devices such as mobile phones, smartphones, wearable terminals, tablet terminals, electronic dictionaries, IC recorders, earphones, music players, etc., and books such as school textbooks, reference books, etc.

B. Disrupting the exam, such as making sounds (incoming calls, alarms, vibration sounds, etc.) from mobile phones and clocks during the examination

C. Making a false offer that would be advantageous to yourself or other examinees regarding matters related to the examination

D. Causing trouble for other examinees at the examination site

E. Failing to follow the instructions of supervisors, etc. at the examination site

F. Other acts that may impair the fairness of the examination

* In addition, if you are found to have something that cannot be used or worn during the examination, it may also be considered misconduct.

XI. Announcement of Acceptance

(1) Date and Time

General Screening, Special Screening for Applicants with Full-Time Employment, Special Screening for International Students and Special Screening for Experienced Persons in International Exchange/Cooperation:

Thursday, December 21, 2023 at 1:30 pm

The application numbers of those accepted will be posted on the University's website <<http://nyushi.utsunomiya-u.ac.jp/goukaku.html>>. Successful candidates will also receive acceptance letters by postal mail.

Inquiries regarding entrance examination results will not be accepted via telephone or other means.

(2) Submission of Enrollment Pledge

Those who are accepted must submit an enrollment pledge to the Administrative Office for the Admission Center by the following date. The form will be sent to successful applicants along with an acceptance letter. If you do not intend to enroll, please submit a withdrawal letter (any format) by the following date.

Deadline for submission

General Screening, Special Screening for Applicants with Full-Time Employment, Special Screening for International Students and Special Screening for Experienced Persons in International Exchange/Cooperation:

Friday, January 5, 2024

XII. Enrollment Formalities

(1) Period of Enrollment Formalities

Scheduled in mid-March 2024

Details will be provided to those who have submitted the Enrollment Pledge (April enrollment).

XIII. Entrance Fees and Tuition

(1) Entrance Fees and Tuition

Entrance Fee ¥282,000

Tuition ¥535,800 (annual fee)

※ The entrance fees and tuition are tentative amounts; they may be revised.

※ If tuition is revised during the program period, the new tuition will apply from the time of revision.

※ Half of the tuition (¥267,900) shall be paid by each of the designated deadline.

(2) Personal Accident Insurance for Students Pursuing Education and Research and Liability Insurance

¥2,430 (for 2 years) [as of April 2023]

XIV. Scholarship System

Students who wish to apply for this scholarship should refer to the following website.

<<https://www.utsunomiya-u.ac.jp/convenient/campuslife/exemption.php>>

Make inquiries regarding this system to the Student Affairs Division.

XV. Special Cases of Educational Methods as Stipulated in Article 14 of the Graduate School Establishment Standards

If it is found particularly necessary from an educational standpoint, the University may provide special cases of educational methods as stipulated in Article 14 of the Graduate School Establishment Standards for students who wish to apply for “Special Screening for Applicants with Full-time Employment.” Based on this provision, the Graduate School of Regional Development and Creativity may, if necessary, provide evening classes (after the regular classroom hours (17:40–20:50)), offer the same subjects twice a week, and consolidate the periods of research and surveys required for the final project. If you seek to benefit from these special provisions, please consult with the research supervisor of their choice before you apply, and then fill in the Special Provisions on Educational Methods in the Application Form.

※Article 14 of the Graduate School Establishment Standards

During studies at a graduate school, if special measures are deemed necessary for educational purposes, education may be provided through an appropriate method, such as class sessions or research instructions at night or other specified periods.

XVI. Extended Registration Period System

This system caters to students for whom it difficult to complete the program within the standard 2 year period because of employment or other reasons by permitting them to extend their period of study (up to a maximum of 4 years) in order to facilitate systematic course planning and effective learning. Course planning and the total number of credits are the same as under the standard programs, which offers a significant reduction in time load per year.

When approval to extend the registration period has been granted, the two-year master’s program can be completed, for example, in three years. In such case, the two-year tuition will be paid over a three-year period, which means the financial burden per year is also reduced by distributing the two-year tuition (four terms) over three years (six terms). (If tuition is revised, recalculation will be made based on the revised fee.)

In order to be accepted into this system for extending the registration period, applicants must submit the required documents to the Dean of Utsunomiya University and obtain permission.

If, due to changing circumstances, an individual is unable to complete the program within the extended period, a further extension may be requested up to a maximum of six years in total. The further extended period in excess of the standard extended period will be considered to be setback years and standard tuition shall apply. Students may newly apply for this extended registration period during the school year or revise the extension period (from 3 years to 4 years or from 4 years to 3 years) only once.

The application period for this program is as follows:

(1) New Application

① Upon entry into the program

During the enrollment procedure in March prior to the start of the enrollment year

② During the school year

Until the end of February of the preceding academic year before the start of the relevant year

(2) Extension or Shortening of the Extended Period

If you wish to extend the registration period, submit a change in the registration period by the last day of the month prior to the final month of the extended period. If you wish to shorten the extended period, submit a change in the registration period by the last day of the month prior to the intended month of completion

Make inquiries regarding this system to the Yoto Division of Student Affairs and Education (telephone 028-689-6014).

Details will be provided to successful applicants at a later date.

XVII. Contact Information for each Graduate Program

If you do not know the contact information for the research supervisor of their choice, or have other inquiries about the major or Graduate Program, please contact the following.

Major	Graduate Program	Contact email address

XVIII. List of Faculty Members

This is a list of faculty members who provide research guidance in the Graduate School of Regional Development and Creativity.

From the page of the Graduate Program you wish to apply for, select one research supervisor based on the field of research, and **be sure to contact the research supervisor of your choice to obtain him/her approval.** Please enter the name of the research supervisor of their choice when you register for the online application.

Advance consultation are limited to matters related to research activities and the curriculum after enrollment. We cannot answer questions related to entrance examination such as questions about past examination questions.

There may be a limit to the number of students accepted by the supervisor to ensure substantial guidance time, or due to limitations on the facilities and equipment of each laboratory. In this case, even if they pass the examination, the applicant may not be able to receive guidance from the research supervisor of their choice.

Assoc.Prof.	KATO, Koji	Environmental Economics	Environmental economics and evaluation of multifaceted functions of agriculture
Assoc.Prof.	SUGITA, Naoki	Agriculture Management	Agricultural Marketing
Asst.Prof.	SCHRAGER Benjamin	International agricultural economics and management	My research examines environmental and social aspects of food systems

【Division of Social Design/ Graduate Program in Architecture and Building Engineering】

Title	Name	Education specialty and research field	Research interest
Professor	MASUDA, Hiroshi	Architectural Structure	Research on seismic performance evaluation of buildings
Professor	NAKAJIMA, Shiro	Building Material, Structure	Research on performance evaluation of wooden materials and wooden building
Professor	SUGIYAMA, Hisashi	Building Material	Research on quality improvement of building materials such as concrete, reinforcing steel, etc.
Professor	YOKOO, Noriyoshi	Architectural Environment, Urban Environment	Research on environmental performance and evaluation of urban buildings
Assoc.Prof.	FUJIMOTO, Satoshi	Building Material, Construction	Research on maintenance and demolition of buildings
Assoc.Prof.	KOGA, Takaaki	Architectural Planning, Environmental Psychology, and Architectural Environment, Environmental Control and Architectural theory, Architectural design, Urban design	Research on architectural planning and environment based on user's point of view
Assoc.Prof.	NAKANO, Tatsuya	Building Steel Structure	Research on joining performance evaluation of steel structure buildings
Assoc.Prof.	SATOH, Eiji	Architectural Planning, Environmental Psychology and Architectural theory, Architectural design, Urban design	Research on resolution method of social problems in relation with urban and architecture
Lecturer	ENDO, Kouichi	Architectural Design, Theory of Architecture	Research on spatial composition of architecture and urban
Asst.Prof.	FUJIWARA, Kisa	Architectural and Urban Environment, Environmental Architecture and Architectural design	Research on architectural and urban design and environmental performance
Asst.Prof.	ITOIGAWA, Takaho	Architectural Environment, Environmental Control	Practical research on human physiology, psychology, cognition and behavior

【Division of Social Design/ Graduate Program in Civil Engineering】

Title	Name	Education specialty and research field	Research interest
Professor	FUJIKURA, Shuichi	Structural Engineering	Research on disaster prevention and safety of frame structures such as bridges
Professor	FUJIWARA, Hiromi	Concrete Engineering	Research on cement-based inorganic building materials
Professor	IKEDA, Hirokazu	River Engineering	Research on disaster countermeasure and environmental protection on rivers
Professor	OHMORI, Nobuaki	Urban Planning, Transportation Planning	Research on sustainable cities and transportation in an aging society with fewer children
Assoc.Prof.	KONDO, Shin-ya	Disaster Management	Research on disaster prevention and crisis management on natural disasters
Assoc.Prof.	MARUOKA, Masanori	Concrete Engineering	Research on building materials such as cement and recycled materials
Assoc.Prof.	OSADA, Teppei	Urban Planning, Transportation Planning	Research on urban and transportation planning corresponding to a society declining in population
Assoc.Prof.	SEIKI, Takafumi	Rock Engineering	Research on safety evaluation and underground environment of rock structure
Assoc.Prof.	UNNO, Toshiyasu	Geotechnical Engineering	Research on disaster countermeasures and environmental issues with the ground and soil
Asst.Prof.	IIMURA, Kosuke	Coastal Engineering	Research on disaster prevention and environmental protection on the coast
Asst.Prof.	THAY Visal	Structural Engineering	Research on repair and strengthening of existing steel structures

【Division of Social Design/ Graduate Program in Irrigation, Drainage and Rural Engineering】

Title	Name	Education specialty and research field	Research interest
Professor	OSAWA, Kazutoshi	Soil and Water Conservation	Dynamics of water, sediment and nutrients in a farmland and agricultural watershed
Professor	MATSUI, Hiroyuki	Agricultural Water Management and Conservation	Irrigation water management, water cycle and water environment management in watershed
Professor	TAMURA, Takahiro	Rural Planning	Research on farm work safety, lighter labor of farm work and land improvement
Assoc.Prof.	IYAMA, Ipppei	Soil and Environmental Biophysics	Research on transport and retention of energy and water in soils
Assoc.Prof.	MORIYAMA, Takumi	Rural Ecology Engineering	Research on conservation and utilization of secondary nature

【Division of Social Design/ Graduate Program in Global and Area Studies】

Title	Name	Education specialty and research field	Research interest
Professor	ISOYA, Akira	Economics	Research on financial markets and systems in the United States
Professor	KAEWMANOTHAM Malee	Sociology	Development and community in Thailand
Professor	MATSUKANE, Kimimasa	History, Asian History, Studies on Taiwanese Colonial History	Research on religion and society in China and Taiwan
Professor	MATSUO, Masaki	Middle East Studies	Political economy of the the Middle East, especially (1) correlation between oil and authoritarianism, (2) international migration in the Middle East
Professor	NI Yongmao	Information Network	Foundations and applications of information equipment system and information network in a global society
Professor	SAKAMOTO, Kumiko	African Area Studies	Research on social development and culture in East Africa
Professor	SHIMIZU, Nanako	International Relations, International Organizations	United Nations security system and human security
Professor	TAKAHASHI, Wakana	Environmental Governance	Research to clarify the cause of differences in environmental policies between regions and nations from a political science perspective
Assoc.Prof.	FUJII, Hiroshige	International Protection of Human Rights and peacebuilding	Research on international Criminal Justice and conflicts
Assoc. Prof.	IIZUKA, Akiko	Disaster Management, International Cooperation	Disaster prevention and management, international cooperation, NGOs
Assoc.Prof.	KOMURA, Manabu	Studies in Village Community	Research based on field work in Japanese rural community
Assoc.Prof.	KURIHARA, Shunsuke	International Development, Governance, Civil Society	Research on international development and governance
Assoc.Prof.	MATSUMURA, Fuminori	International Relations in East Asia	Research on Chinese foreign policy and international political history
Assoc.Prof.	SUEYOSHI, Ana	Applied Economics (including Economic History)	Research on Latin American politics and economy

【Division of Social Design/ Graduate Program in Multicultural Studies】

Title	Name	Education specialty and research field	Research interest
Professor	AMANUMA, Minoru	Theoretical Linguistics, English Linguistics	Theoretical and demonstrative research on syntactics, semantics and phonology of modern English
Professor	HASEGAWA, Mayumi	Social Welfare	Social community and citizenship education
Professor	JEONG, Gwi Ryun	Comparative Literature, Japanese Literature, Korean Literature	Comparative research on East Asian literature and culture
Professor	KINOSHITA, Daisuke	Composition, Musicology	Research on music composition and practice and historiography (Western music history)
Professor	MARUYAMA, Tsuyoshi	Education, School Education, School Curriculum	Research on new junior high school curriculum history, curriculum of education for foreign school children, colonial technology and vocational education history
Professor	MATSUI, Takako	Japanese Culture, Japanese Literature, Comparative Culture	Tradition and modernization in Japan, cultural universality, heterogeneity and homogeneity
Professor	NAKAMURA, Makoto	Psychology	Research on social community and emotional communication
Professor	QI, Jie	Educational Sociology, Foreign Language Education	Research on school education and foreign language education
Professor	SHIMODA, Jun	History, Western History	Research on history and religion in Europe and Germany
Professor	SUZUKI, Keiko	Modern Japanese Literature	Formation and acceptance of literature in modern Japan
Professor	YONEYAMA, Masafumi	American Literature	Research on 19th century romantic literature
Professor	YOSHIDA, Kazuhiko	Linguistics, Foreign Language Education	Multilingual Communication
Professor	YUZAWA, Nobuo	English Phonetics	Phonetics in modern English and application to education
Assoc.Prof.	HONDA, Goro	Art, Art Education	Research on arts (theory and art history in modern times) and art education
Assoc.Prof.	IZUHA, Takashi	English Art History	Research on 18th to 19th century British paintings
Assoc.Prof.	KUROKAWA, Kyoko	Criminal Law, Legal Studies	Discriminatory prosecution, legal education
Assoc.Prof.	OHNO, Tokiko	Russian literature, Theory of Culture	19th century Russian literature and formative culture
Assoc.Prof.	TACHIBANA, Yuuki	Education	Research on school education in global age
Assoc.Prof.	TAKAYAMA, Keiko	History, Japanese History	Japanese modern history, transition history in the modern and contemporary
Assoc.Prof.	TAKAYAMA, Michiyo	Japanese History of Japanese Language	Grammar and vocabulary of ancient Japanese
Assoc.Prof.	USHITORA, Kaori	Sexuality and Human Rights	Sex and human rights in modern times
Assoc.Prof.	YAMADA, Yukiko	Philosophy, Ethics	German idealism philosophy and life (medical) ethics
Asst.Prof.	IWASAKI, Hiroyuki	Theoretical Linguistics	Syntax, Semantics
Asst.Prof.	MAKINO, Kanako	French Literature	19th century French literature and history of Western philosophy
Asst.Prof.	MIYAKE, Toshihiro	Japanese Linguistics	History of the Japanese grammar

【Division of Social Design/ Graduate Program in Community and Human Development】

Title	Name	Education specialty and research field	Research interest
Professor	KAWASHIMA, Yoshiaki	Educational Engineering, Information Education	Research on media utilization and contents creation corresponding to informational society
Professor	MATSUSHIMA, Sakurako	Arts and Crafts, Urushi Lacquer Art	Asian lacquer arts and crafts with a focus on the cultures that created and support them
Professor	SASAKI, Kazuya	Environmental Education for Living, Clothing Science	Research on living and regional environment creation focusing on clothing
Assoc.Prof.	DEGUCHI, Akiko	Science Education, Science Teaching, Learning Sciences	Research on design experiments in science learning
Assoc.Prof.	HIRAI, Rie	Music Expression, Music Education	Research on expression, instruction, creation and management in music
Assoc.Prof.	ISHIKAWA, Takayuki	Developmental Psychology	Research on sociality of children
Assoc.Prof.	KABUTA, Masahiko	Painting Techniques, Theory and History of Arts	Research on technique based on paintings, research on spreading regional art
Assoc.Prof.	KOHARA, Kazuma	Sociology of Emotion	Application of amusingness of play to education, school caste
Assoc.Prof.	KUBO, Motoyoshi	Health education, School health	Theoretical and practical study of health education in school, Research on contemporary health issues of youth
Assoc.Prof.	KUMATA, Teisuke	Course education (Social Studies)	Theoretical and demonstrative research on social studies and history education
Assoc.Prof.	UEHARA, Shuichi	Education (Philosophy of Education)	Research on the relationship between thinking and language in education
Asst.Prof.	MIYASHIRO, Kozue	Cognitive Psychology	Research on impact of perceptual expression of language to language processing

【Division of Engineering and Agriculture/ Graduate Program in Optical Engineering】

Title	Name	Education specialty and research field	Research interest
Professor	HAGEN Nathan	Applied Optics	Optical design, spectroscopy, computational sensing
Professor	HAYASAKI, Yoshio	Information Photonics, Laser Processing, Computational imaging	Processing / measurement / display / imaging by fusion of light and information
Professor	OHTANI, Yukitoshi	Polarization Engineering, Optical metrology, Optomechanics	Research on polarization, spectroscopic imaging, optional-mechatronics
Professor	SATO, Mie	Human Informatics, Kansei Engineering	Image processing, Kansei information processing, and human-computer interaction
Professor	SUGIHARA, Okihiro	Optical Communication Engineering, Polymer Photonics	High speed communication using optical fiber / optical waveguide, interaction between light and polymer
Professor	YAMAMOTO, Hirotsugu	Information Photonics	Research on 3D display and its application
Professor	YUGAMI, Noboru	Plasma Science and Engineering	Terahertz electromagnetic radiation from laser generated plasma
Assoc.Prof.	BARADA, Daisuke	Photodynamics, Mathematical Optical Physics	Light propagation analysis, application to optical recording and optical measurement, interaction between light and substance
Assoc.Prof.	FUJIMURA, Ryushi	Optical Science & Engineering, Nano Photonics	Research on holographic memory, plasmonic metal Nano structure
Assoc.Prof.	HASEGAWA, Satoshi	Laser material processing, Optical Information processing, Optical metrology	Laser material processing with optical metrology
Assoc.Prof.	NINOMIYA, Nao	Visualization and Image Processing	Development and application of three-dimensional image measurement technology of thermal fluid
Assoc.Prof.	SHINODA, Kazuma	Perceptual Information Processing	Research on imaging and image processing
Assoc.Prof.	TAMADA, Yosuke	Biological Optics and Bioimaging	Optical measurement and control of living cells towards discovering novel biological phenomena
Asst.Prof.	OHTSUKA, Takamitsu	Plasma Science and Engineering	Electron acceleration of laser wake and its application

【Division of Engineering and Agriculture/ Graduate Program in Molecular Agriculture】

Title	Name	Education specialty and research field	Research interest
Professor	FUKUI, Emiko	Animal Breeding and Reproduction	Genetic analysis related to economic traits of livestock
Professor	IIGO, Masayuki	Molecular Physiology	Hormone, neurotransmitter biosynthesis and mechanism of action, light genome life chemistry
Professor	KODAMA, Yutaka	Plant Cell Biology	Molecular mechanism and molecular control of plant cell response under environmental alteration
Professor	MATSUDA, Masaru	Molecular Genetics	Molecular mechanism of sexual development of medaka and genetic diversity of wild population in fish
Professor	MATSUMOTO, Hiromichi	Animal Breeding and Reproduction	Developmental biology of mammalian embryos during peri-implantation
Assoc.Prof.	KASHIWAGI, Takayuki	Crop Science	Research on genetic factors and environmental factors controlling agronomic traits of crops
Assoc.Prof.	KUROKURA, Takeshi	Horticultural Sciences	Molecular physiology of horticultural crops
Assoc.Prof.	MIYAKAWA, Hitoshi	Environmental Physiology	Research on molecular mechanism of arthropod environmental response and its evolution
Assoc.Prof.	NISHIGAWA, Hisashi	Plant Pathology	Research on molecular mechanism of pathogenicity of plant virus
Assoc.Prof.	NOMURA, Takahito	Plant Physiological Chemistry	Study on regulation of plant growth by plant hormones
Assoc.Prof.	OHNISHI, Takayuki	Plant Breeding	Research on genetic breeding of crops
Assoc.Prof.	SUZUKI, Tomohiro	Molecular bioinformatics	Purification and structural determination of natural products. Genetic analysis using next generation sequencing.
Assoc.Prof.	TAKAHASHI, Michiko	Plant Nutrition	Clarification of the roles of mechanism of nutritional stress tolerance in plants and metallic elements during reproductive growth
Asst.Prof.	NERIYA, Yutaro	Plant Pathology	Research on interaction between plant viruses and plant hosts

【Division of Engineering and Agriculture/ Graduate Program in Material and Environment Chemistry】

Title	Name	Education specialty and research field	Research interest
Professor	FURUSAWA, Takeshi	Chemical Engineering, Catalysis	Research on catalyst development in chemical process
Professor	IIMURA, Ken-ichi	Interfacial Chemistry	Research on physical property and structure analysis, control and functionalization of interfacial molecular film
Professor	KATOH, Norihiro	Functional Polymer Chemistry	Design and development of functional soft materials in biotechnology
Professor	OBA, Toru	Supermolecular Chemistry, Bioorganic Chemistry	Development of molecules that regulate and analyze biological functions such as disease treatment and diagnosis
Professor	SATO, Masahide	Chemistry Engineering, Thermal and Mass Transfer	Research on synthesis and application of surface modification, nanomaterial and nanomaterial dispersion system
Professor	SATO, Takafumi	Chemistry Engineering	Research on reaction separation using supercritical fluid and membrane
Professor	UEHARA, Nobuo	Analytical Chemistry	Research on development of functional substances in measurement chemistry
Assoc.Prof.	ITO, Satoshi	Organic Chemistry	Synthesis of new heterocyclic compounds and development of functional organic materials
Assoc.Prof.	KARIKOMI, Michinori	Synthetic Organic Chemistry	Development of new synthetic reaction and synthetic study of unusual organic compounds
Assoc.Prof.	MATSUMOTO, Taki	Inorganic Synthetic Chemistry	Research on the creation of functional inorganic materials by liquid phase process
Assoc.Prof.	MOROHOSHI, Tomohiro	Bioengineering	Research on communication mechanism between bacteria
Assoc.Prof.	TAMESUE, Shingo	Supermolecular Chemistry, High Polymer Chemistry	Development of polymer functional materials using supramolecular bonding
Assoc.Prof.	TEZUKA, Keitaro	Inorganic Solid Chemistry	Synthesis and evaluation of new functional inorganic compounds
Assoc.Prof.	YOSHIHARA, Sachio	Electrochemistry, Surface Finishing Technology, Electronics Packaging Technology	Atomic level surface control using electrochemical method and development of new functional materials
Asst.Prof.	INAGAWA, Arinori	Analytical Chemistry	Development of microfluidic devices with ice as material and its application to separation science
Asst.Prof.	IWAI, Hidekazu	Catalytic Chemistry, Computational Chemistry	Research on development of photocatalyst using surface plasmons
Asst.Prof.	KIM Yuna	Organic functional materials chemistry	Development of functional chromogenic materials
Asst.Prof.	NASUNO, Eri	Biotic Function Engineering	Control and utilization research on microbial metabolic function using functional polymer material
Asst.Prof.	NIKATA, Toshiyuki	Environmental Bioengineering	Application of bacterial chemotaxis signaling system to environmental purification

【Division of Engineering and Agriculture/ Graduate Program in Agricultural Biological Chemistry】

Title	Name	Education specialty and research field	Research interest
Professor	HABU, Naoto	Polymeric Biomaterials Science	Development and utilization of functional biomaterials
Professor	HASHIMOTO, Kei	Food Chemistry	Research on impact of cooking and processing to the functionality of food
Professor	KABUYAMA, Yukihiro	Biochemistry	Research on advanced use of biological functional ingredients
Professor	MAEDA, Isamu	Applied Microbiology	Analysis of various functions of microorganisms and their applied research
Professor	NIHEI, Ken-ichi	Natural Products Organic Chemistry	Structural determination, chemical synthesis and biological evaluation of natural products
Professor	YOKOTA, Shinso	Forest Chemistry	Proteomics and metabolomics in forest pathology. Development for utilization of lignocellulosic biomass
Assoc.Prof.	ISHIGURI, Futoshi	Wood Material	Growth and material of afforestation tree and tropical trees, tissue structure and chemical composition of broad-leaf tree reaction wood
Assoc.Prof.	KONNO, Naotake	Biopolymer Chemistry	Development and utilization of woody biomass
Assoc.Prof.	MIZUSHIGE, Takafumi	Biofunctional Chemistry	Biochemical research on functionality of biological components
Assoc.Prof.	TOYOSHIMA, Yuka	Nutritional Biochemistry	Studies on nutritional regulation of hormone action and metabolism
Assoc.Prof.	XIE, Xiao Nan	Natural Products Chemistry	Research on isolation and structure analysis and mass analysis of physiologically active substances

【Division of Engineering and Agriculture/ Graduate Program in Mechanical and Intelligent Engineering】

Title	Name	Education specialty and research field	Research interest
Professor	HASEGAWA, Hiroaki	Fluid Engineering	Application to aerospace, space, medical, sports fields based on fluid dynamics
Professor	MABUCHI, Yutaka	Micro-Nano Engineering	Research on ultra-low friction, thermal barrier and heat transfer function by thin film
Professor	OZAKI, Koichi	Robotics	Research on social implementation of robot technology and robot
Professor	SHIMAWAKI, Satoshi	Bioengineering, Medical Engineering, Welfare Engineering	Biofunction, measurement of movement, simulation
Professor	YOSHIDA, Katsutoshi	Mechanical Dynamics, Control	Research on modeling of motion and intellectual control
Professor	ZOU, Yan Hua	Advanced Precision Machining	Foundation and application of precision processing technology, magnetic processing technology
Assoc.Prof.	HOSHINO, Satoshi	Intelligent Robotics System	Intelligent Robotics, Artificial Intelligence, Machine Learning, Human-Robot Interaction, Group Intelligence
Assoc.Prof.	SATOH, Ryunosuke	Industrial Engineering, Machining	Research on fixed abrasive grinding, nanometer surface creation, etc.
Assoc.Prof.	SEKIKAWA, Munechisa	Nonlinear Dynamics	Research on synchronization phenomenon and chaos phenomenon of transducer
Assoc.Prof.	SHIRAYORI, Atsushi	Metal Forming Engineering, Elasto-Plasticity	Research on weight reduction of metal parts and molding process
Assoc.Prof.	WATANABE, Shin-ichi	Engineering Education, KANSEI Engineering	Research on psychological measurement method and psychological quantification
Assoc.Prof.	YAJIMA, Takahiro	Applied Dynamics, Applied Geometry	Differential geometric research in applied mechanics
Assoc.Prof.	YAMAMOTO, Tokujiro	Material Engineering	Research on creation and evaluation of new materials by material organization control
Asst.Prof.	NAKABAYASHI, Masataka	Biomechanics, Biomimetics, Medical Engineering	Biomimetics, Human Interface, Medical engineering, Welfare Engineering

【Division of Engineering and Agriculture/ Graduate Program in Information, Electrical and Electronic Systems Engineering】

Title	Name	Education specialty and research field	Research interest
Professor	FUNATO, Hirohito	Electromagnetic Energy Engineering	Research on power electronics and renewable energy
Professor	HASEGAWA, Hiroshi	KANSEI Engineering, Acousticpsychology	Research on sensitivity information processing, acoustic signal processing, acoustic measurement, wave theory and its application
Professor	HASEGAWA, Madoka	Image Engineering	Research on image encoding, image processing, digital watermarking and usable security
Professor	HIGASHIGUCHI, Takeshi	Electromagnetic Energy Engineering	Research on fiber laser, solid state laser and extreme ultraviolet, soft X-ray light source
Professor	HIRATA, Mitsuo	Information and communications System Engineering	Research on advanced control theory and its industrial applications
Professor	IRIE, Akinobu	Electronic Property Engineering	Research on physical properties of high-temperature superconductor nanostructures and its applications to quantum functional devices
Professor	ISHIDA, Kunio	Electronic Property Engineering	Research on optical properties, semiconductor physics, quantum dynamics and their application to optical devices
Professor	ISHIKAWA, Tomoharu	Human Informatics, KANSEI engineering	Research on multimodal interface technology based on cognitive science and sensitivity engineering, virtual reality, psychophysics, and psychophysiology
Professor	ITOH, Satoshi	Medical Image Engineering	Research on MRI imaging algorithm and image reconstruction method and medical image processing
Professor	KOGAMI, Yoshinori	Information and communications System Engineering	Research on application to design technology of communication microwave and millimeter wave circuit, to material measurement technology of microwave and millimeter wave circuit, etc.
Professor	OOTSU, Kanemitsu	Computer System Engineering	Research on high performance computing system, parallel distributed processing
Professor	TOYAMA, Fubito	Information and communications System Engineering	Research on evolutionary computation, soft computing, and pattern recognition
Professor	YAJIMA, Tetsu	Mathematical Sciences, Physical Property Foundational Theory	Research on analysis of mathematical physics, computer physics and infinite degrees of freedom integrable system
Professor	YOKOTA, Takashi	Computer System Engineering	Research on parallel and distributed computer system, embedded computer system, design methodology
Assoc.Prof.	AZUMA, Takehito	Information and communications System Engineering	Research on model control prediction etc. of system biology and hybrid system
Assoc.Prof.	FUJII, Masahiro	Information Statistics	Research on wireless communication network, intelligent transport system, and location information system
Assoc.Prof.	GOTOH, Hiroki	Electromagnetic Energy Engineering	Research on design and control technology of motor and generator, application to electric vehicle
Assoc.Prof.	KASHIWAKURA, Takayuki	Electronic Property Engineering	Research on X-ray spectroscopic analysis techniques and thin film fabrication techniques
Assoc.Prof.	KOIKE, Masafumi	Theoretical Physics, Elementary Particles Theory	Mathematical Physics and Theoretical Particle Physics
Assoc.Prof.	MORI, Hiroki	Information and communications System Engineering	Research on voice and spoken language information processing, speech dialogue system, etc.
Assoc.Prof.	MORI, Hiroshi	Media Informatics	Research on Computer graphics and mixed reality
Assoc.Prof.	SAKUMA, Hiroshi	Electronic Property Engineering	Research on spintronics and crystal structure analysis
Assoc.Prof.	SHIMIZU, Takashi	Information and communications System Engineering	Research on circuit design technology, material evaluation technology etc. in microwave and millimeter wave band
Assoc.Prof.	SUZUKI, Masayasu	Information and communications System Engineering	Research on advanced control theory and its industrial applications
Assoc.Prof.	YAMAKI, Kazuhiro	Electronic Property Engineering	Research on physical properties of high temperature superconductor nanostructures and its application to quantum functional devices
Assoc.Prof.	YODA, Hidehiko	Information and communications System Engineering	Research on the principle, design, analysis, fabrication, and evaluation of devices for optical fiber communication
Asst.Prof.	SAITOH, Yoshifumi	Electromagnetic Energy Engineering	Research on phenomena in plasmas, especially, dusty plasmas and waves in plasmas
Asst.Prof.	TSURUTA, Mariko	KANSEI Engineering, Acousticpsychology	Research on sound psychology, sound and sound environment design

【Division of Engineering and Agriculture/ Graduate Program in Agricultural and Environmental Sciences】

Title	Name	Education specialty and research field	Research interest
Professor	BANG, Sang Woo	Plant Thremmatology	Genetic breeding use of distant crosses in crucifers
Professor	IKEGUCHI, Atsuo	Environment and Information Engineering of Biology	Research on acquisition and utilization of living organisms and environmental information in livestock and plant production
Professor	IWANAGA, Masashi	Molecular entomology	Functional utilization of insects and insect viruses, molecular biology
Professor	KOBAYASHI, Hiroyuki	Weed Science	Weed ecology and management
Professor	MATSUI, Masami	Field Mechanics	Research on the structure and utilization of field machines
Professor	NAGAO, Yoshikazu	Physiology of Animal Reproduction	Research on reproductive physiology, breeding and feeding management of animals
Professor	SAITOH, Takahiro	Environmental Control in Biology	Research on facilities horticulture, plant factory and food science
Professor	SONODA, Shoji	Applied Entomology	Research on comprehensive pest management of agricultural pests
Professor	YAMANE, Kenji	Horticulture	Research on physiology, ecology, production and utilization of horticultural crops
Assoc.Prof.	AKASAKA, Maiko	Weed Science	Weed management and Plant protection
Assoc.Prof.	AOYAMA, Masato	Animal Function and Morphology	Invention of animal management based on the morphology, physiology and ethology
Assoc.Prof.	FUKUL, Ryo	Agricultural and Environmental Microbiology	Research on soil environment and microbial function inhabited by microorganisms
Assoc.Prof.	HISHINUNA, Tatsuo	Agro-Environmental System Analysis	Verification and evaluation of low environmental load type agricultural and livestock production system
Assoc.Prof.	IKEDA, Hiroki	Field Science of Horticultural Crops	Research on physiology and ecology of horticultural crops
Assoc.Prof.	KASHIWAZAKI, Masaru	Postharvest Technology	Research on quality improvement and quality evaluation in agricultural product distribution
Assoc.Prof.	KODERA, Yuji	Conservation Biology	Research on preservation of natural ecosystems and management of wildlife
Assoc.Prof.	NISHIO, Takayoshi	Vegetation Studies	Ecological study on vegetation and its plants
Lecturer	KURIHARA, Nozomi	Animal Morphology	Research on the structure and function of the animal body, its formation and evolution
Asst.Prof.	HAYAKAWA, Chie	Soil Science	Soil biogeochemistry and soil fertility
Asst.Prof.	KOYAMA, Takuya	Crop Science	Plant root system and its functions
Asst.Prof.	TAMURA, Masatsugu	Food Distribution Engineering	Research on food processing technology and quality evaluation

【 Division of Engineering and Agriculture/ Graduate Program in Forest Production and Conservation】

Title	Name	Education specialty and research field	Research interest
Professor	ARUGA, Kazuhiro	Forest operation system	Research on optimization in forest operation system
Professor	YAMAMOTO, Miho	Forest Policy	Research on institutional design for sustainable use of forest resources
Assoc.Prof.	AIZAWA, Mineaki	Forest Botany	Research on geographical variation of genetic, morphological and ecological characteristics of forest plant
Assoc.Prof.	HAYASHI, Uichi	Forest Economics	Economic analysis on forestry labor and timber market trend analysis
Assoc.Prof.	MATSUE, Keigo	Planning for Forest Management	Research on forest planning presupposing conservative use of forest resources
Assoc.Prof.	OHSIMA, Jun-ichi	Forest Products Management	Research on forest damage and wood decay of damaged trees

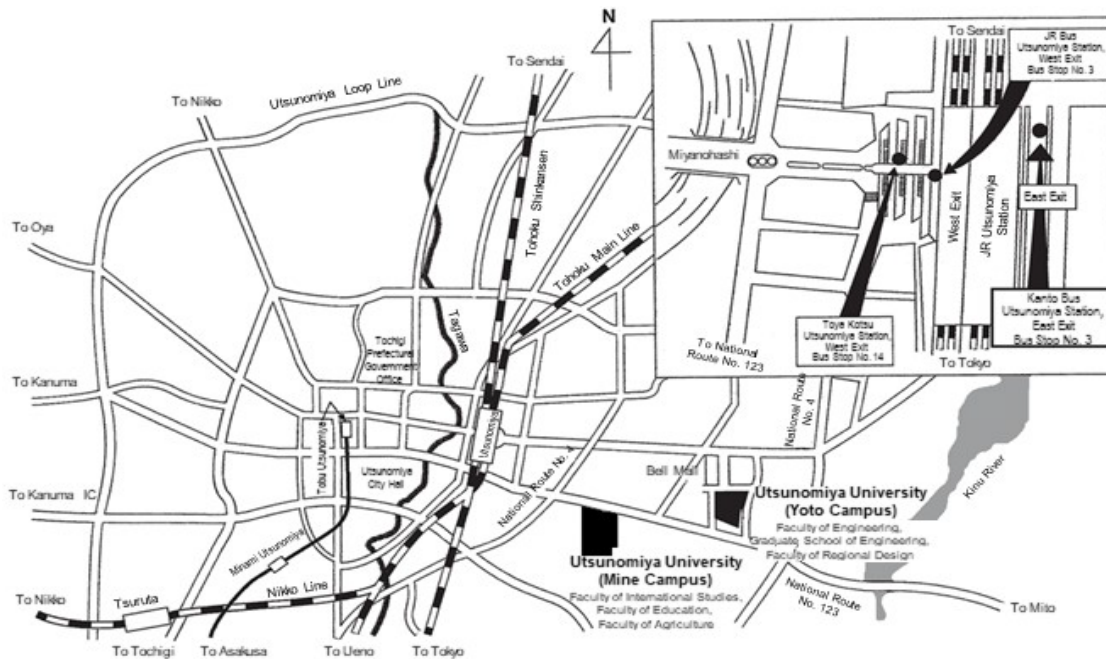

How to Access the Examination Venue

- Time from Tokyo

- JR Tokyo Station: Tohoku Shinkansen / approx. 1hr.
Ueno Tokyo Line, Utsunomiya Line/ approx. 2 hr.
- JR Shinjuku Station: Shonan Shinjuku Line, Tohoku Shinkansen /approx. 1 hr.15min. (Transfer at JR Omiya Station)
Shonan Shinjuku Line, Utsunomiya Line / approx. 1 hr. 50 min.
- Tobu Railway: From Asakusa Station to Tobu Utsunomiya Station/ approx. 2 hr. 30 min.
- Haneda Airport: Airport Limousine, Kanto Transportation / approx. 3hr.

- Time from Sendai

- JR Sendai Station: Tohoku Shinkansen / approx. 1 hr. 20 min.

- Access from JR Utsunomiya Station and Tobu Utsunomiya Station

- ◎ Mine Campus (approx. 2.2 km from JR Utsunomiya Station)

- Kanto Bus (Bound for Mooka, Mashiko, Hoshinomori Junior and Senior High School , Bell Mall; Oroshi Danchi Junkan, etc.)
Board at JR Utsunomiya Station West Exit Bus Stop No. 14 and disembark at the Utsunomiya Daigaku-mae Bus Stop (approximately 10 min.)
Board at Tobu Utsunomiya Station Bus Stop and disembark at the Utsunomiya Daigaku-mae Bus Stop (approximately 20 min.)
- Kanto Bus (Udai Junkan Line, clockwise and counterclockwise routes)
Board at JR Utsunomiya Station East Exit Bus Stop No. 3 and disembark at the Utsunomiya Daigaku-mae Bus Stop (approximately 10 min. for the counterclockwise route, and approximately 30 min. for the clockwise route)

- ◎ Yoto Campus (approx. 4.2 km from JR Utsunomiya Station)

- Haga-Utsunomiya LRT (bound for Haga Machi Kogyo Danchi Management Center)
Approximately 10 minutes by ride from Utsunomiya Station East Exit. Get off at 'Utsunomiya University Higashigawa Campus' and it's a 9-minute walk."
- Kanto Bus (Bound for Mooka, Mashiko, Hoshinomori Junior and Senior High School, Bell Mall, etc.)
Board at JR Utsunomiya Station West Exit Bus Stop No. 14 and disembark at the Kogakubu-mae Bus Stop (approx. 20 min.)
Board at Tobu Utsunomiya Station Bus Stop and disembark at the Kogakubu-mae Bus Stop (approx. 30 min.)
Note: Buses bound for other destinations will not stop at Kogakubu-mae.
- Kanto Bus (Udai Junkan Line, clockwise and counterclockwise routes)
Board at JR Utsunomiya Station East Exit Bus Stop No. 3 and disembark at the Udai Kogakubu Seimon Bus Stop (approx. 15 min.)
Note: Buses come about every 30 minutes.
